

Ciro A. de Quadros, M.D., M.P.H

Dr. Ciro A. de Quadros is the Director for International Programs of the Sabin Vaccine Institute (SVI), since February 2003. Before joining the SVI he was Director of the Division of Vaccines and Immunization of the Pan American Health Organization in Washington, DC. He completed his medical studies in Brazil in 1966 and received a Master of Public Health degree from the National School of Public Health in Rio de Janeiro in 1968. He was involved with the pioneering experiences for the development of the strategies of surveillance and containment for Smallpox eradication and in February, 1970 joined the World Health Organization (WHO) as Chief Epidemiologist for the Smallpox Eradication Program in Ethiopia. He transferred to the Pan American Health Organization (PAHO) in February 1997 to serve as the Senior Advisor on Immunizations. He directed the successful efforts of polio eradication from the Western Hemisphere and directed the efforts to eradicate measles from the same region

Dr de Quadros is also an Associate Adjunct Professor at the Johns Hopkins School of Hygiene and Public Health, an Associate Professor at the School of Medicine of Case Western Reserve University and an Adjunct Professor in the Department of Tropical Medicine of the School of Medicine of George Washington University in Washington DC. He has participated and presented papers in over 100 conferences throughout the world and has received several international awards, including the 1993 Prince Mahidol Award of Thailand and the 2000 Albert B. Sabin Gold Medal. In 1999 he received the highest civil award given by the Government of Brazil, the Order of Rio Branco.
