

## 10. Acknowledgments

PAHO/WHO wishes to thank the President and Organizing Committee for inclusion of the *Roll Back Malaria* initiative in the agenda and for ensuring efficient logistical and administrative support during the Malaria and Tropical Medicine Congress in Cartagena. It also wishes to acknowledge the high level of competence evident in the countries' presentations and to thank national delegations, partners and participants for experiences and ideas shared; all of which ensured success of the meeting and the future development of the *Roll Back Malaria* initiative in the Americas.
