Regional Platform for Access and Innovation for Health Version 1.0 Proposed Activities

Activity	Object	Participants	Community	Responsibilities	Instruments	Rules	Results
DATA HUB	Data and statistics on technological innovation, rational use, access.	RICYT NHRA MOH STI authorities PAHO/WHO CC	Donors MOH HRA Industry Academia Civil Society PAHO/WHO Other activity systems	RICYT: Indicators STI PAHO/WHO: Indicators access, regulations CC: other relevant indicators and statistics	List of indicators (CYTED/OECD) and other relevant indicators. Access indicators: WHO methodology PAHO indicators: under development Analysis: Tableau Database/Hub Data integration components Web 2.0 /Knowledge Management Services	Institutional responsibility	1-tables, graphics, matrix 2-analyses 3-periodic reports in selected topics (yearly report, monitoring of specific indicators)

Regional Platform for Access and Innovation for Health Version 1.0 Proposed Activities

Activity	Object	Participants	Community	Responsibilities	Instruments	Rules	Results
THEMATIC LIBRARY	<p>External Topic-specific VHL</p> <p>Hyperlist on:</p> <ul style="list-style-type: none"> -WHO essential medicines -Strategic Fund High Cost Medicines <p>Annotated with references to Scientific Evidences, prices, registries, products, National drug formularies that are searchable with predetermined criteria</p>	<p>BIREME</p> <p>HSS/MT Regulators Cochrane</p>	<p>NHRA MOH Industry Academia PAHO/WHO</p>	<p>BIREME</p> <p>PAHO: Strategic Fund</p> <p>WHO: Essential medicines list</p> <p>High cost medicines: Countries</p> <p>Cochrane: Evidence-summaries</p> <p>NHRA: regulations</p>	<p>Lists</p> <p>Systematic Reviews</p> <p>NHRA product registration records</p> <p>KMS</p> <p>Database</p> <p>Methodologies for evidence search, grading and summaries</p>		<p>1-Reference service to support decision making, policies and interventions related to medicines, technologies and health innovation.</p> <p>2-Information integration and consolidation from the perspective of medicines and technologies and innovation for health</p>

Regional Platform for Access and Innovation for Health Version 1.0 Proposed Activities

Activity	Object	Participants	Community	Responsibilities	Instruments	Rules	Results
VIRTUAL CAMPUS OF PUBLIC HEALTH	Learning opportunities both virtual and on site related to all aspects of access and innovation for health	HSS/MT y HSS/HR CC Course's participants	Academic Institutions Industry Collaborating Centers PAHO/WHO	HSS/MT: propose activities base on needs and demand CC: develop courses HR: quality control and process evaluation; establish methodologies, VCPH maintenance	VCPH methodologies VCPH platform (Moodle, Elluminate) KMS Others	VCPH rules Pre-established standards	HR with competences adequate to support all areas of innovation for health
DIRECTORIES	Specialized directories relevant to pharmaceutical, health technologies and innovation for health management	HSS/MT PANDRH	MOH NHRA Industry Academic institutions Science and technology authorities	HSS/MT: mapping methodologies PANDRAH: source of data Industry: source of data	Database KMS Mapping Methodology National drug formularies Policies and regulations NHRA product registration records		Integration and consolidation of the information on medicines, health technologies and innovation for health from member countries and the rules and policies that govern the sector Facilitate the exchange and communication between different access and innovation sectors.
EXPERT LOCATOR	On-line interactive system to find individuals and /or institutions within the innovation form health system.	Platform's Registered users Administrators	Registered users Networks PAHO/WHO	HSS/MT: administrator Community : provides content	KMS Stela's Platform	HONcode	Facilitate and support working collaborations and networks to promote R&D for health

Regional Platform for Access and Innovation for Health Version 1.0 Proposed Activities

Activity	Object	Participants	Community	Responsibilities	Instruments	Rules	Results
COMMUNITIES OF PRACTICE	Web 2.0 space for communities of practice online work and interaction in topics related with innovation for health	Communities and networks HSS/MT: administrator	Registered users and existing and new networks	HSS/MT overall administration, grants administrator. rights to CoP CoP Administrator: organize the CoP, enforces rules and ethics code , user support	KMS Stela's Platform		Support the development, strengthening and functioning of CoP relevant to innovation and access for health
INNOVATION FORUM	On line market space where seekers and solvers from the area of innovation for health can link to resolve specific R&D demands relevant to technological innovation public health priorities	Seekers and solvers	Industry NS NHRA Industry Donors PAHO/WHO Innovators Researchers	HSS/MT: administration and “curator”services Solvers and seekers provide content	Web KMS Web application to register problems/solutions Directory of institutions and individuals that participate		Enable a dynamic relationship between those who seek to solve an innovation for health problem and those capable of offering a solution under an open innovation framework Map stakeholders, projects, initiatives related to R&D for health Monitor R&D for health trends Interoperate this space with other similar ones Resource mobilization to promote R&D for health

Regional Platform for Access and Innovation for Health Version 1.0 Proposed Activities

Acronyms

CC: Collaborating Centers

COP: Communities of practice

HONcode: HON Code of Conduct

MOH: Ministry of Health

NHRA: National Health Regulatory Authorities

PANDRH: Pan American Network on Drug Regulatory Harmonization (PANDRH)

RICYT: Ibero American Network of Science and Technology Indicators

STI: Science, Technology and Innovation

VCPH: Virtual Campus Public Health

VHL: Virtual Health Library

RD: Research and Development
