

**Name of Community:** \_\_\_\_\_

**Oral Health Intervention:** \_\_\_\_\_

---

List the Next Steps that need to be accomplished before you can fully implement your oral health interventions.

- Do you need funding? How much? Where will it come from?
- Do you need to purchase items like gloves, fluoride varnish, etc.?
- Do you need to contact school administrators or other community leaders?
- Are you planning to promote oral health messages in your community? How will you do this and who you need to contact?

Decide what needs to be done and start listing it on “Next Steps” chart, along with the name of the person who will do this and when it will be done.
