

ANNEX A. WORKING GROUP ACTIVITIES PLANNED FOR 2012-2013

PAHO/WHO Strategic Objective 08

1.

Regional Expected Result RER	Indicators	GPA OBJ/ PRIORITIES	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
8.1 Evidence-based assessments, norms and guidance on priority environmental health risks (e.g., air quality, chemical substances, electromagnetic fields (EMF), radon, drinking water, waste water re-use) disseminated.	8.1.3 Number of countries implementing WHO norms, standards or guidelines on occupational or environmental health	GPA 1/1.1	- Country Workers Health Profile: 1- Propose structure for development of OSH profiles 2- Liaison with IRET and other institutions - Helping the implementation of the GPA in Brazil: Elaborate a country report on the GPA implementation	BRA-48	
			Asbestos atlas	PAHO	
			Strengthening Occupational & Environmental Health research in Central America & Caribbean	COR-8	
8.2 Member States supported through technical cooperation for the implementation of primary prevention interventions that reduce environmental health risks; enhance safety; and promote public health,	8.2.1 Number of countries implementing primary prevention interventions for reducing environmental risks to	GPA 1/1.3	Emergency response	USA-150	
			Young workers health	USA-150	
		GPA 2/2.1 Y 2.2	Training and dissemination of methodologies to intervene, prevent and promote health of aging working population	CUB-10	

PAHO/WHO Strategic Objective 08

1.

Regional Expected Result RER	Indicators	GPA OBJ/ PRIORITIES	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
including in specific settings and among vulnerable population groups (e.g. children, older adults).	health in workplaces, homes or urban settings	GPA 5/5.2 Y 5.3	Health care workers - provide technical assistance and training (train-the-trainer) for the prevention and control of occupational hazards and risks in the healthcare sector, focusing on biological and chemical hazards - Develop tools for the safe handling of hazardous drugs - Training and dissemination of guidelines on preventive medical examinations for healthcare workers - Manual for waste workers on how to handle safe medical waste	USA-334 USA-260 USA-150 PER-* GRA-1 COL-19 CUB-10	
			Healthy Workplace: Provide technical assistance and consultation to PAHO Employee Health and Safety Committee	USA-334 USA-150	
			Analytical Laboratory Network: - Conduct a survey of existing laboratory capacity and establish a network of laboratories in the region; - assistance with implementation of regional plan for laboratory network	USA-334 (UFMG-BRAZIL)	

PAHO/WHO Strategic Objective 08

1.

Regional Expected Result RER	Indicators	GPA OBJ/ PRIORITIES	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
			-Tools to provide training to workers on disaster hazard awareness /emergency response -Health and safety training of vulnerable workers	USA-NIEHS	
			Providing Occupational Health Services agriculture and mining sectors	CUB-10	
			- Creating a set of preventive tools for emergency workers - Working in healthy environments and behaviors - Programs for preventing sexually transmitted diseases in vulnerable sectors	CHI-10	
8.3 Member States supported through technical cooperation to strengthen occupational and environmental health policy-making, planning of preventive interventions, service delivery and surveillance.	8.3.1 Number of countries receiving technical and logistical support for developing and implementing policies for strengthening the delivery of occupational and environmental health services and surveillance	GPA 1/1.1 Y 1.2	National Program on Elimination of Silicosis - Training in the ILO Radiological Classification - Contribution to image data banks - Sandblasting in the Americas - Silicosis Fact Sheet - Silica exposure limits (sampling, analysis and regional particularities) - Eliminating sandblasting in Chile	BRA-48 USA-150 CHI-10 COL-19 CUB-10	
			Asbestos exposure - Chronic Airflow Limitation - Mortality patterns in former asbestos-cement workers	BRA-48	
			Public health surveillance capacity	GRA-1	

PAHO/WHO Strategic Objective 08

1.

Regional Expected Result RER	Indicators	GPA OBJ/ PRIORITIES	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		GPA 3/3.1 Y 3.2	building training program		
			Research, training and dissemination of guidelines for workers' environment and work assessment	CUB-10	
			Strengthening training and education in Occupational health in Colombia and Latin America	COL-19	
			- Support of peer-reviewed occupational health research publication; - Development of training courses for implementation in Latin American developing countries	USA-183	
			Multiple audio visual materials	BRA-48	
			Capacity building occupational health professionals and service providers	USA-183	
			ICD, List of occupational diseases	COL-19	
			Dissemination of the National Plan for prevention for occupational cancer and pneumoconiosis (technical regulation , MEL, and Surveillance system)	COL-19	
			CAREX Colombia and its dissemination	COL-19	
			CAREX Costa Rica, Nicaragua, Panama y El Salvador	COR- Timo	
			- Probable CAREX for Chile	CHI-10	

PAHO/WHO Strategic Objective 08

1.

Regional Expected Result RER	Indicators	GPA OBJ/ PRIORITIES	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
	8.3.2 Number of national organizations or collaborating or reference centers implementing PAHO/WHO-led initiatives at country level to reduce occupational risks	GPA 4/ 4.2	National Program on Elimination of Silicosis in the informal sector	BRA-48	
			National surveys of working conditions and health (currently in field work phase in six central American countries 12,000 workers in both formal and informal sectors).	USA-183	
		GPA 5 /5.1	Occupational health services for the informal sector	CUB-10	
			Characterization of the informal sector in Colombia	COL-19	
			Child labor in Colombia	COL-19	
8.4 Guidance, tools, and initiatives created to support the health sector to influence policies in priority sectors (e.g. energy, transport, agriculture), assess health impacts, determine costs and benefits of policy alternatives in those sectors, and harness non-health sector investments to improve health.	8.4.1 Number of regional, subregional and national initiatives implemented in other sectors that take health into account, using PASB technical and logistical support	GPA 5/5.2	Mining safety	USA-150	
			Road safety for workers	USA-150	
			Health and safety training tools for construction and transportation workers	USA-NIEHS	
			Mining and agriculture in Colombia	COL-19	
			Physiology and working conditions in high altitudes (mountain sickness)	CHI-10	
8.5 Health sector leadership enhances to promote healthier environment and influence public policies in	8.5.1 Number of regular high level for a on health and environment for		- Production and edition of 4 HQ on nanotechnology (1 st > General issues 2ns. Chemical industry, 3 rd . Construction 4th. Agriculture. The first two are already	BRA-48

all sectors to address the root causes of environment threats to health, by responding to emerging and re-emerging environmental health concerns from development, evolving technologies, other global environmental changes, and consumption and production patterns.	regional policy makers and stakeholders supported by PAHO.		available at FUNDACENTRO site in Portuguese, Spanish and English		
			Nanotechnologies	USA-150	
			Impact of climatic change on OHS	CAN-79	
			Health and safety training related to green jobs(constructions alternative energy and nanoparticles)	USA-NIEHS	
8.6 Member States supported through technical cooperation to develop evidence-based policies, strategies and recommendations for identifying, preventing and tackling public health problems resulting from climate change.	8.6.2 Number of countries that have implemented plans to enable the health sector to respond to the health effects of climate change	GPA 4/4.1	Addressing occupational health problems among nutmeg factories workers	GRA-1	
			Energy for sustainable development in the Caribbean	GRA-1	

NOTES:

- ➔ Assistance to PAHO as needed USA-150
- ➔ Emerging hazards response technical assistance to PAHO as needed (ex: H1N1)

Working Group 2. Risk Assessment and Global Environmental Change

Regional Expected Result RER	RER Indicators	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
8.1 Evidence-based assessments, norms and guidance on priority environmental health risks (e.g., air quality, chemical substances, electromagnetic fields (EMF), radon, drinking water, waste water re-use) disseminated.	8.1.3 Number of countries implementing WHO norms, standards or guidelines on occupational or environmental health	Policy brief on UV protection	CC Bolivia – Francesco Zaratti	
		Training and technical cooperation for environmental health threats (also 5.2, 5.4. and 5.5): 1. drinking water sanitation 2. pesticides 3. preparedness for and responding to emergencies involving chemicals and radiation 4. heavy metals, POPs, etc	CDC- UFRJ - Judith Qualters, Carmen Froes	
		Development of sampling and laboratories practices for environmental exposures and biomarkers of exposure and effect	TBD	

Regional Expected Result RER	RER Indicators	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
8.2 Member States supported through technical cooperation for the implementation of primary prevention interventions that reduce environmental health risks; enhance safety; and promote public health, including in specific settings and among vulnerable population groups (e.g. children, older adults).	8.2.1 Number of countries implementing primary prevention interventions for reducing environmental risks to health in workplaces, homes or urban settings	Children's environmental health: 1. Inventory of birth cohort studies in the various countries of the region 2. Regional action plans for children's environmental health, including identification of knowledge gaps, knowledge transfer for policy setting and primary care.	CC Uruguay, UFRJ & CC Mont Sinai - Amalia Laborde; Perry Sheffield; Carmen Froes	
8.3 Member States supported through technical cooperation to strengthen occupational and environmental health policy-making, planning of preventive interventions, service delivery and surveillance.	8.3.1 Number of countries receiving technical and logistical support for developing and implementing policies for strengthening the delivery of occupational and environmental health services and surveillance	Identification of knowledge gaps, knowledge transfer needs, implementation gaps and evaluation needs of surveillance systems for hazards, environmental exposures and related health impacts (also 3.3)	CC Fiocruz, CC – INSQ, Jorge Machado, Pierre Gosselin	
	8.3.2 Number of national organizations or collaborating or reference centers implementing PAHO/WHO-led initiatives at country level to reduce occupational risks			
8.4 Guidance, tools, and initiatives created to support the health sector to influence policies in priority sectors (e.g. energy, transport, agriculture), assess health impacts, determine costs	8.4.1 Number of regional, subregional and national initiatives implemented in other sectors that take health into account, using PASB technical and logistical support	Promotion of Ecohealth approaches (systems based, mixed methods) through workshops and meetings	CC INSP CC CINBIOSE Horacio Riojas, Donna Mergler	

Regional Expected Result RER	RER Indicators	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
and benefits of policy alternatives in those sectors, and harness non-health sector investments to improve health.		Framework and methodology to bridge the gap between social and environmental determinants of health for PAHO and CCs	CC San Luis Potosi, CC IRET; Fernando Diaz-Barriga, Timo Partanen	
8.5 Health sector leadership enhances to promote healthier environment and influence public policies in all sectors to address the root causes of environment threats to health, by responding to emerging and re-emerging environmental health concerns from development, evolving technologies, other global environmental changes, and consumption and production patterns.	8.5.1 Number of regular high level for a on health and environment for regional policy makers and stakeholders supported by PAHO.	Integrated action plan between the CCs on biodiversity and land use change and health	CC Fiocruz - CC Wisc – Jorge Machado, Jonathan Patz	
		Development of sampling and laboratories practices for environmental exposures and biomarkers of exposure and effect On-line environmental health training	TBD INSP; UFRJ, CDC: Fiocruz ; Horacio Riojas, Carmen Froes, Judith Qualters, Jorge Machado	
8.6 Member States supported through technical cooperation to develop evidence-based policies, strategies and recommendations for identifying, preventing and tackling public health problems resulting from climate change.	8.6.2 Number of countries that have implemented plans to enable the health sector to respond to the health effects of climate change	Integrated action plan between the CCs on climate change impact, adaptation and health co-benefits of mitigation	CC UWisc & CC INSP – Mexico CC Fiocruz : Jonathan Patz, Horacio Riojas, Jorge Machado	

Working Group 3. Health Promotion and Healthy Settings

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
06	6.5.1, 6.5.2	- Promote the distribution and dissemination of health-promoting bicycle and pedestrian education materials for researchers, practitioners, and students; and engage interested parties to adapt materials to regional needs. - Develop a consortium of universities in the region of the Americas to examine the role of transportation on health in specific areas such as air quality, physical activity, and road safety. The consortium will facilitate information dissemination for decision-makers, and training for urban local governments. The approach will include activities related to research, information dissemination, research translation, and training. - Take the initiative to stimulate the healthy municipalities, cities and communities movement in the US in the beginning and eventually in the Region in the area of transportation and health - Request external funding to facilitate the coordination of the consortium, provide technical assistance, and sustainability of the consortium. Potential funders identified include the National Institutes of Health, Centers for Disease Control and Prevention, EMBARQ (The World Resource Institute Center for Sustainable Transport), and other appropriate foundations. - Contribute information to PAHO's work and data base including printed materials, training materials, and Internet-based resources. - Contribute to preparations for meeting on 12 April 2012 on social determinants of health: urban health, mental Health, education & health, research, policies and practice - Participate in Regional Wellness Week and match it with the Consortium - Develop a Transportation and Physical Activity Workshop in collaboration with the RAFA/PANA (Red de Actividad Fisica de las Americas/Physical Activity Network of the Americas) for presentation at a professional meeting such as International Congress on Physical Activity and Public Health, International Society of Environmental Epidemiology, American College of Sports Medicine, International Conference of Healthy Universities, Inter American Conference on Health Promotion of IUHPE, and/or Global Conference on Health Promotion. - Continue collaboration with the Robert Wood Johnson Foundation Active Living Research Initiative. Currently, Dr. Crespo (WHO CC Urban Health Sustainability) is a member of the National Advisory Council of this Initiative, and Dr. Tom Schmidt from the WHO CC for Physical Activity and Health Promotion also participate in the leadership of this initiative. We	Portland State University WHOCC Urban and Health Sustainability Carlos Crespo ccrespo@pdx.edu (503) 725-5120 (office) (503) 347-3699 (cell)	- Faculty exchange from other countries, cover travel expenses, relocation, logistical support - Tuition, scholarships for students that want to complete doctorate - Collaborate with CC and The International Union for Health Promotion and Health Education (IUHPE) on the 5th Latin American (LA) and 4th Inter-American Conference on Health Promotion (HP) of IUHPE (ORLA/NARO - Latin American Regional Office/ North American Regional Office)

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		propose to engage the Center in Seattle to participate in the activities of the Active Living Research Initiative. - Collaborate in the development of multisectorial meeting of public health and urban planning - Collaborate in the implementation of the Plan of Action on Urban Health - Collaborate in the follow-up on physical activity from the UN High Level Meeting (HLM) on setting targets and meetings - Direct collaboration with sub-national and national plans for diet and physical activity b), c) d)		
06	6.1.1	- Expand evidence base as community measurement partner for US National Institutes of Health (NIH) Healthy Communities Study focused on childhood obesity (30,000 children in 275 communities) - Contribute to development and dissemination of PAHO virtual course on health promotion; with content from the Spanish Community Tool Box Expand use of Community Tool Box in Spanish and seek to “mash up” content/methodologies from other CC & apply to other topics (SDH, Non-Communicable Diseases - NCDs, Physical Activity - PA) (contingent on available resources) In collaboration with other CC in Brazil, translate and culturally adapt the Community Tool Box in Portuguese (contingent on available resources) In collaboration with other CC in Canada, translate and culturally adapt the Community Tool Box in French - Expanding the evidence base for community health promotion-- Dissemination of guidelines and promotion of use of PAHO Guide for documenting health promotion experiences in the Americas (e.g., through prize) - Support Regional preparations for the 8th Global Conference on Health Promotion - Support the development of tools (including from Community Tool Box) for strengthening family and community capacity for Human Security and resilience including strengthening the social fabric - Serves on the WHO Expert Committee on Health Promotion b), c), d), g) h)	U. of Kansas WHOCC for Community Health and Development Stephen Fawcett sfawcett@ku.edu	- Support for developing a simplified Documentation Guide on Health Promotion (HP) for offering a prize on the Social Determinants of Health (SDH) - Ensure wider distribution and use of tools (including those from English and Spanish Community Tool Box) - Help seek funding for translation and cultural adaptation of the 7,000 page Community Tool Box into Portuguese and French - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)
06	6.1.1	- Expand and revise virtual course on health promotion beyond PAHO staff and connect with other CC to provide tutorial support for a longer collaborative course (need funding) - Connect with CEDETES in expanding evaluation work in the Region - Contribute to development of a PAHO basket of tools for HP work in the Region that can affect SDH and equity - Work with PAHO to put SDH and HP at centre of practice - Support PAHO to develop a contest to encourage practitioners to fill in documentation template with HP initiatives from LA	U. of Toronto WHOCC for Health Promotion Suzanne Jackson suzanne.jackson@utoronto.ca	- Develop Web site to put all tools and courses - Ensure that the PAHO VCPH includes many of these tools and courses Support for evaluation of virtual course - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		- Support Regional preparations for 8th Global HP Conference and show how HP is a key tool to address the social determinants of health - Analyze good practices in safe motherhood initiative in Latin America (for Morales) - Serves on the WHO Expert Committee on Health Promotion b), c), d), g) h)		(ORLA/NARO)
06	6.1.1	- How to measure, correlate and produce information useful to decision makers – various publications – produce appropriate ways to achieve ISA, empowerment, social participation and how to evaluate them – redefine surveillance systems, indicators for accountability within FW of ISA – Want to partner with other CC on this - Virtual course on the evaluation of the effectiveness of two public health strategies: health promotion and primary health care (CDC financial support, technical support from PAHO). - Virtual course on the evaluation of the effectiveness of health promotion interventions. - Create a network to expand THE DISSEMINATION AND UTILIZATION OF THESE technologies to produce public health evidence. - Create a network to expand this initiative, use of these technologies to produce public health evidence. - Produce position papers that combine issues in intersectoral action (ISA) by using any problem as an entry point to create infrastructure for more general problem solving. - Support Regional preparations for the 8th Global Conference on Health Promotion - Support the development of indicators and monitoring for health determinants in the Region - Strengthen technologies about health impact assessment & effectiveness evaluation on interventions addressing equity, health determinants, & chronic non communicable diseases, through health promotion and primary care strategies: 1). Test, update & implement tools to measure & monitor public health interventions in order to produce information useful to decision makers & civil society; 2) publications; 3). Redefinition of surveillance and monitoring systems, indicators for accountability about health determinants, and principles and values of public health strategies. - PARTICIPATION IN PAHO MEETING ABOUT MEDITATION AND MONITORING OF DETERMINANTS OF HEALTH b), d), h)	U. del Valle WHOC for Evaluation, Training and Advocacy in Health Promotion Ligia Salazar cedetes@cedetes.org	- Facilitate development of synergies among CC in new forms of surveillance, monitoring and evaluation approaches and systems - Explore alternative entry points beyond the health care system - Strengthen health promotion in the UNASUR Regional countries focused on SDH working with Ministries - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO) - Development of qualitative and quantitative indicators to evaluate the impact and effectiveness of public health interventions; as well as indicators on the quality of the design and implementation of these interventions in order to establish valid association of attribution. - Develop and strengthen methodological and technological approaches to evaluation of the impact and effectiveness of these interventions, in the short, medium and long term, consistent with the needs of the countries in the Region. - Strengthen methodological approaches to produce and use information for decision making, especially all the links information with other sources like public health information, surveillance and monitoring of health determinants, and contextual factors that influence vulnerability such as health responses.
	6.1.1	Capacity building in health promotion in the Americas, including regional and subregional workshops	School of Public Health, Medical Sciences Campus, University of	- Facilitator - Financial

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
06		• Training and guidance documents to develop capacity, documentation and mainstreaming of health promotion • Coordinate the CIUEPS Network (www.ciueps.org) . The Consortium of Universities and Training Centers in Health Promotion and Health Education. • Part of the Human Resources and Training of the Technical Group on Health Promoting Schools. • Support the upcoming V Latinoamerican Conference on Health Promotion in Mexico (2012). • Editing two books: Training Models on Health Promotion and Health Education and the Experiences of Healthy Universities in the Iberoamerican Region. • Competencies based Project in Health Promotion. The project is coordinated by the INSP in Cuernavaca, Mexico. • Organize the VI International Congress of Healthy Universities on March 19-21, 2013 in San Juan, Puerto Rico. • Serve as Secretariat for the Ibero-American Network of Health Promoting Universities in the Americas • Host the VI International Conference of HP Universities in 2013 • Collaborate with the HP Schools Taskforce in the development of a Technical Report on the Regional Approach to Promoting Health in School settings. • Support Regional preparations for the 8th Global Conference on Health Promotion a), b), c), d), g), h)	Puerto Rico WHOCC for Training and Research in Health Promotion and Health Education Hiram V. Arroyo hiram.arroyo1@upr.edu	• Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)
06	6.1.1 6.1.3	• Multi-Center Research with 7 universities in Brazil. Now will build line of multi-center research with 7 universities on equity in health in its broadest sense in Brazil.. • Collaborate in the implementation of the Plan of Action on Urban Health • Capacity Building: • working with managers and professionals of different social sectors of the central government and of different regions of the country including the issue of social determinants of health and equity; • working with State of Sao Paulo professionals on violence and traffic accidents projects, supporting planning and capacity-building participatory evaluation. (Money from Sao Paulo State). • working with managers and professionals of different social sectors to include the issue of evaluation of effectiveness of health promotion in their projects. • With Sao Paulo City, work with Health Agents, health in the environment, Health and Environmental Departments of City to measure if the Program of Green and Healthy Environments is sustainable (money from Ministry of Health - MOH) • Strengthening networks collaborating with other WHOCC . • Participating of initiative of School Health Promotion in the America with Collaborating Center on School Health Promotion and Sexual Reproductive	U. of Sao Paulo WHOCC for Healthy Cities and Health Promotion Marcia Faria Westphal marciafw@terra.com.br	• For forum on Healthy Cities, need continued political support and if possible financial support (if PAHO supports then Brazilian government might be more interested in supporting) • Work on Portuguese version of Community Toolbox • Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		Health of Colombia with Blanca Patricia Mantilla Bucaramanga CC. - Developing a process of cultural and linguistic adaptation of the tool box for monitoring and evaluating community health projects with the University of Kansas (KU) – USA. - Improving the conceptual framework of the health promotion for capacity building on health promotion for undergraduate and graduate courses for Universities in Brazil and South America with University of Sun Juan de Puerto Rico. - Support Regional preparations for the 8th Global Conference on Health Promotion - Help PAHO to update Guide for Mayors on healthy municipalities, cities and communities; - Prepare scientific articles and didactic materials and manuals related with social determinants of health and equity and evaluation. a), b), c), d), e), g), h)		
06	6.1.3	- Lead 190 member municipalities in network - Development of communities with local government (working mostly with municipalities as well as with neighborhoods and local organizations in big cities) – CC helps with the processes of ISA, citizen participation, empowerment and the issues are identified locally - Virtual training in Développement des communautés in French – for Africa and Haiti – useful to translate into Spanish/English for use in other countries of the Region - Work with English minority communities with guides for mayors and municipal workers on how to include health in planning, and another one on participatory evaluation - Revamping CC Web site - With other Healthy Municipalities, Cities and Communities (HMC) networks in Canada (New Brunswick, Ontario, British Colombia), showing how HMC can be useful for NCDs and Healthy Environments. Plan to create a Canada-wide network and expand it to other provinces. - With Public Health Agency of Canada, evaluation of HC and Chronic Diseases. - In Mali, training now and for next year collaborate with municipality organization and local health center to launch HMC approach and eventually to have an HMC network. In the future: Senegal and Haiti, and perhaps twinning cities in Mali and Haiti - Perhaps translate KU Community Toolbox into French and adapt it in Africa and perhaps Haiti - Pursue the Workshop on HMC in Dakar and repeat in Haiti Help PAHO with updating the Guide for Mayors on healthy municipalities, cities and communities - Help with the communication of health information and monitoring in urban	Quebec National Institute of Public Health WHOCC for the Development of Healthy Cities and Towns Mrs Paule Simard Paule.Simard@inspq.qc.ca	- Don't get sufficient information about what is happening in the Region and Globally with PAHO and WHO. Please share opportunities for participation when there are meetings/events that are close geographically and that are related to the work of the CC (i.e. on Haiti) - PAHO help mobilize support for CC to go to Haiti - Work with CC to determine what should be translated and used in the rest of the Region - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		settings at the community level • Help organize a meeting of public health professionals and urban planners b), d), h))		
06	6.1.3	• Develop network of United States (USA) Urban Health (UH) centers. • Continue to review academic papers for the Eastern Mediterranean Regional Office (EMRO) of the world Health organization (WHO) • Work with University of Washington faculty on promoting ways cities can be made more walk able • Conduct research on mechanisms to get US mayors more focused on the health agenda using the process of “agenda setting” • Support and promote organizations working on the built environment to focus more on health at national conventions such as those of the American Planning Association (APA), Urban Affairs Association(UAA), Association of Collegiate Schools of Planning(ACSP) and the American Association of Landscape Architects ASLA) • Collaborate and promote an urban health agenda in urban planning programs in the USA • Support the development of a common language on UH for urban planners and related professionals • Conduct research on metrics related to Health Impact Assessments (HIA) with the Centers on Disease Control (CDC) • support the translation of the new - o book “Making Healthy Communities” into Spanish for distribution in the Americas, • Develop of a pilot HIA project to determine best approaches and methods for an HIA. - o Create pilot projects related to HIA • Work with the International City Management Association to see how to incorporate health in the US agenda and expand to countries to the south • Help PAHO to update the Guide for Mayors on healthy municipalities, cities and communities • Support the development of the PAHO Urban Health Action Plan • Support the organization of a meeting of public health professionals and urban planners • Promote north/south collaboration on urban health with EMRO and PAHO b), d)	**U. of Washington, Seattle Fritz Wagner CC on Health Aspects of Urban Development fwagner@uw.edu	• PAHO provide more direction for the support the CC can provide • Have clear focal point in PAHO • Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
06	6.5.1, 6.5.2	- Support the development of urban design guidelines - Support the organization of a meeting of public health professionals and urban planners b), c) d)	Physical Activity and Health Branch, Division of Nutrition & Physical Activity (DNPA), National Center for Chronic Disease Prevention & Health Promotion CDC WHOCC for Physical Activity and Health Promotion Dr. Tom Schmid tls4@cdc.gov	- Facilitator - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO)
7	7.1, 7.2	- Initiate the implementation of a Metropolitan Observatory on Social Inequalities in Health, interchanging experiences with the Brazilian National Institute of Science and Technology – Metropolis Observatories (Observatório das Metrópoles) and with the Urban Health Observatory of the Minas Gerais Federal University. - Capacity building by means of the implementation of an interdisciplinary certificate course about urban health, social health inequities and health determinants, in collaboration with other Pan American institutions - Publish papers and promote workshops about the measurement of urban segregation by means of the use spatial segregation indices, based on the fact that integrated cities, where different social and economic groups share the same urban spaces, are healthier. Considering that the main public tool to promote integrated cities are housing policies, one task will be to connect such metrics with the Inter American Network for Health in Housing - Work with the University of São Paulo in the multicenter research on equity in health in Brazil. - Collaborate in the implementation of a Plan of Action on Urban Health; Work on Portuguese version of the software EPIDAT and other products.	** Federal University Rio Grande do Sul (UFRGDS) Sergio Bassanesi Sergi.bassanesi@ufrgs.br	- Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO) - Faculty and consultancy exchange from other institutions and cover travel expenses. - Scholarships for undergraduate students, as trainees in the projects
06		- Maintain and expand: Extend the 5-day program for the Latin American Region strengthen the one for Chile; Promote healthy food and physical activity related to HP and prevention of obesity and chronic NCDs - Train human resources in HP and prevention of NCDs, through masters degrees	Universidad de Chile Instituto de Nutrición y Tecnología de los Alimentos (INTA) WHOCC for Nutrition and	- Define technical counterpart in PAHO for nutrition and PA - Carry out a meeting on NCDs in 2012 including PA, as a follow-up to HLM in NY in 2011 - Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE

S.O.	RER	PRODUCT/SERVICES AND TASK*	CC	PAHO SUPPORT
		programs via on-line continuing education - Participate in the application of WHO regulations (without trans fats and los so saturated fats and sugar) for industrially-processed foods - Promote healthy foods and physical activity in educational and university establ - Evidence of action: analysis and communication of the results of population stu support with information provided to local & national public policies	Health Judith Salinas jsalinas@inta.cl	(ORLA/NARO)
06		- Incorporate into the PAHO virtual campus the Virtual Diploma in Health Promoting Schools (HPS)and Development - Contribute to strengthening the Network of the Iberoamericanan Network of Health Promoting Universities (HPU) based on the experience of this CC in HP in the school setting.. - Continue strengthening the activities of the Consultative Group on Health Promotion in the School Setting in relation to training human talent as well as strengthening criteria of accreditation and certification of Health Promoting Schools and their national networks. - COLAM y REDET (Network for the Training in SDH that is part of the Colegio de las Américas that has numerous associated universities) Workshop on the SDH and Virtual Diploma on Local Management of the SDH. - Work with PAHO Colombia in strengthening the National Intersectoral Technical Committee on Health Spaces. - With WHO, Ministries of Education and Health, create the National Commission on Healthy Schools and the National Network of Healthy Schools. Also, participate in the development of an Intersectoral HP Strategy on Healthy Life Styles, as is promoted by the Ministries of Education and Health. - Support Regional preparations for the 8th Global Conference on Health Promotion	<i>Instituto PROINASPA</i> Universidad Industrial Santander (UIS) WH OCC for Health Promotion and Sexual and Reproductive Health Blanca Patricia Mantilla Uribe bpmantil@uis.edu.co	- Collaborate with CC and IUHPE on the 5th LA and 4th Inter-American Conference on HP of IUHPE (ORLA/NARO) - Work to get the IUHPE as an official observer of PAHO

VIOLENCE AGAINST WOMEN AND CHILDREN

Acronyms

CISALVA	Centro de Investigación “Salud y Violencia”
GBV	Gender-based Violence
IDB	Inter-American Development Bank
INSP	Instituto Nacional de Salud Pública (INSP)
IPV	Intimate Partner Violence
PREVIVA	Prevención de Conductas de Riesgo para la Vida
SGBV	Sexual and gender-based violence
SV	Sexual violence
UNC	The University of North Carolina at Chapel Hill
VAW	Violence against Women

S.O.	RER	PRODUCT/SERVICES AND TASK*	POSSIBLE SUPPORT BY CC FOR 2012-2013	PAHO SUPPORT	NATURAL ALLIES
<u>Improving the quality, access, dissemination and use of data on violence against women</u>					
SO.3		Comparative data analysis - PAHO, in collaboration with the CDC, is carrying out an analysis of prevalence data of violence against women from 12 countries in LAC. It is expected that the English report will be ready at the end of 2011 and the Spanish version in early 2012 when we plan to carry out dissemination workshops in each of the 12 countries.	- CDC, Centro de Investigación “Salud y Violencia”, Prevención de Conductas de Riesgo para la Vida, Instituto Nacional de Salud Pública (in Spanish) - Review the report once it is in final draft (Nov 2011) - CDC (depending on funding), CISALVA (not funding, but could disseminate in 15 countries that are part of the Inter-American Development Bank initiative), INSP (no funding) - Support the dissemination of the results via your own networks, but also possibly helping us carry out country-level workshops in each of the 12 countries - Consider supporting the translation of the report into Spanish (no funds are currently available for this) - Make use of the data for policy design and programming	Alessandra Guedes (AG)	
SO.3		Improving surveillance of gender-based violence – PAHO often receives request to support the strengthening of surveillance systems in the areas of violence against women and violence	Support the recommendations to improve Belize’s surveillance system as well as to strengthen the health sector response to victims of violence. (The report prepared	(AG)	Citizen Security initiatives by World

S.O.	RER	PRODUCT/SERVICES AND TASK*	POSSIBLE SUPPORT BY CC FOR 2012-2013	PAHO SUPPORT	NATURAL ALLIES
		against children (the latter to a lesser extent). In collaboration with the CDC, we recently carried out a situational analysis of Belize's Gender-based Violence surveillance system.	by the CDC which outlines recommendations will be shared as soon as it's finalized – probably early November). CDC (contingent upon funding and time), JHU (setting up an open course on surveillance), CISALVA (has been working in Colombia and could serve as south-south collaboration) - Support countries request for support in strengthening their surveillance systems		Bank/IADB
<u>Strengthening capacity for primary prevention of violence against women and children</u>					
SO.3		Preventing intimate partner and sexual violence against women: Taking action and generating evidence – WHO recently published this document which compiles data on: - magnitude of violence, - risk and protective factors, - effective and promising interventions for primary prevention across the lifespan. PAHO is currently translating this publication into Spanish and English	CDC, CISALVA (15 countries), INSP - Support the dissemination of the document	(AG)	
SO.3		Online training on prevention of Intimate Partner Violence and Sexual Violence PAHO supported the creation of a brief online training on this topic, as part of the TEACH-VIP e-learning module, available at: http://teach-vip.edc.org/course/view.php?id=26	INSP (review the online training to assess relevance) - Support the dissemination of the online training and consider supporting its translation into Spanish (no funds are currently available for the translation).	(AG)	
SO.3		3-day training on IPV and SV PAHO is currently adapting a 3-day training on prevention of IPV and SV in LAC. This training is based on a training developed by WHO and has been adapted for LAC based on two pilot implementations in the region. This module will be available by	- Support the dissemination and use of the 3-day training. - CDC, CISALVA (could provide contact of the institutions), The University of North Carolina at Chapel Hill (suggested virtual presence) - Support the implementation of such trainings in the LAC region	(AG)	

S.O.	RER	PRODUCT/SERVICES AND TASK*	POSSIBLE SUPPORT BY CC FOR 2012-2013	PAHO SUPPORT	NATURAL ALLIES
		the end of 2011.	INSP has a summer course on primary prevention of IPV and SV – Exchange experiences		
SO.3		Strengthening primary prevention of violence against women and children in Costa Rica, El Salvador and Guatemala PAHO recently received small funding to strengthen the primary prevention component of national plans and programs in these 3 countries. One of the first steps in this effort will be to carry out an assessment of these 3 countries policies and programs to determine to extent they have incorporated primary prevention efforts. As part of this assessment process, we will also try to determine to what extent these countries have protocols and systems in place to support the health sector response to victims of violence.	- Support the assessment of the countries' program and policies, as well as the assessment of the health sector response. - PREVIVA – intervention on primary prevention of violence against children	(AG) PAHO to share ToR with all CCs	
<u>Strengthening the health sector's response to violence against women and children</u>					
SO.3		Policy and clinical guidelines on the health sector response to Violence against Women PAHO is supporting the development of policy and clinical guidelines for the health sector response to VAW, which is spearheaded by WHO. These guidelines are a result of a series of systematic reviews and meetings with experts. The guidelines are expected to be available in February of 2012.	- CDC - Support the dissemination of the guidelines (at a minimum, it would be important that our agencies do not send out contradictory messages). - Support the translation into Spanish and the dissemination of the guidelines. - CDC is interested, but depends on scope and time-frames - Support a mapping of existing protocols in the region. (WHO EURO has developed a questionnaire for this purpose).	(AG)	Mental Health
SO.3		Improving the health sector response to victims of sexual and gender-based violence in Haiti – PAHO recently hired a Sexual and gender-based violence advisor (Dr. Zeregebe Toh) to support PAHO's country office and the Ministry of Health in Haiti. Additionally, in July / August of 2011, PAHO carried out an assessment of 64 'free obstetric care' (SOG, for their acronym in French) health facilities spread across the country to assess to what extent these clinics were prepared to provide services to victims of intimate partner and sexual violence. This report will be available for distribution in the second semester of 2012.	- Emory U. - Help edit the report and refine the data analysis. - Disseminate the report once it's available. - Support country-level requests for trainings of health care providers	(AG)
