

INNOVATIVE STRATEGIES FOR CERVICAL AND BREAST CANCER CONTROL

15-16 April, 2013
PAHO/WHO Office in Peru
Lima, Peru

AGENDA

Objectives:

1. Present available evidence and share experiences on new strategies for cervical cancer and breast cancer prevention and control.
2. Identify opportunities to stimulate paradigm changes for women's cancer prevention.
3. Review methods for training, supervision and quality control related to new strategies for women's cancers.
