Objectives

The groups should respond to the following questions:

1. Which HIVDR surveillance protocols should be prioritized, based on identified public health priorities at National Program level and feasibility in the LAC region?
2. Which are the most relevant challenges for the implementation of harmonized and quality controlled HIVDR surveillance in the region?
3. Which are the most relevant challenges for the programmatic use of HIVDR surveillance data to support decision making at National Program level ?
4. Recommendations from the group about technical cooperation needs to support harmonized and quality controlled HIVDR surveillance in the region.

Question 1

- Which HIVDR surveillance protocols should be prioritized, based on identified public health priorities at National Program level and feasibility in the LAC region?
