Tobacco: prices and taxes

RETAIL PRICE PER PACK OF 20 CIGARETTES

| | | In local dollars (XCD) | In international dollars (PPP) ¹ |
|-------------------------|-----------------|------------------------|---|
| Most popular brand: | Benson & Hedges | 8.00 | 4.94 |
| Most inexpensive brand: | L&M | 4.00 | 2.47 |
| Most expensive brand: | Marlboro | 8.00 | 4.94 |

TAXES ON TOBACCO²

| Taxes as percentage of the final price of t | he most sold brand | | Design and administration of cigarette taxes | | |
|--|-----------------------------|----------------|---|----|--|
| Excise taxes ³ | Specific taxes ^₄ | 0.00% | Are taxes applied in mixed fashion (ad valorem and | No | |
| Excise laxes" | Ad valorem tax ⁵ | 0.00% excise)? | | NO | |
| Value-added/sales tax (VAT) Import duty ⁶ Other taxes Total excise taxes | | 13.04% | If a mixed tax system is used, is the tax burden of | | |
| | | 0.00% | excise taxes greater than that of <i>ad valorem</i> taxes? ⁷ If an <i>ad valorem</i> or mixed tax system exists, is a specific minimum tax applied? ⁸ | | |
| | | 2.43% | | | |
| | | 15.47% | specific minimum tax applieu: | | |

The international dollar is a currency unit adjusted for purchasing power parity (PPP) that is used to compare the value of products and services in different countries. Taxes: taxes imposed on goods or services which cause consumers to pay higher prices. 1

2

3 Excise taxes: these have a greater impact on public health since they are applied exclusively to tobacco products and raise their relative price compared to other products and services.

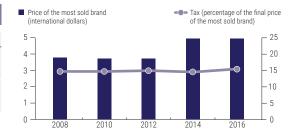

4 Specific tax: it is established in relation to quantity, for example, a set quantity of cigarettes, or by weight.

5

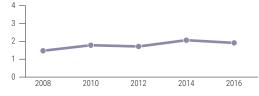

Ad valore that is based on the value of the product, such as a percentage of the retail price, the manufacturer's price, etc. The effectiveness of import duties in raising sales prices has been declining as countries have signed bilateral, regional, and global trade agreements. 6

Specific excise taxes tend to raise consumer prices more, relatively, than ad valorem taxes. Imposing the same specific excise tax on all cigarettes sends the clear message that they are all equally detrimental. 8 If the tax calculated falls below a specified minimum level, a specific tax rate is applied.

| EVOLUTION OF TAXES AND PRICES ON THE MOST POPULAR BRAND OF CIGARETTES | | | | | | |
|---|--------|--------|--------|--------|--------|--|
| | 2008 | 2010 | 2012 | 2014 | 2016 | |
| Tax (percentage of the final price of the most sold brand) | 14.77% | 14.77% | 15.00% | 14.63% | 15.47% | |
| Price of the most sold brand (international dollars) | 3.77 | 3.73 | 3.71 | 4.94 | 4.94 | |

Percentage of GDP per capita required to purchase 100 packs

EVOLUTION OF THE PRICE OF CIGARETTES COMPARED TO INCOME 2008 2010 2012 2014 2016 Percentage of per capita GDP required to purchase 1.47% 1.78% 1.71% 2.06% 1.91% 100 packs9 Have cigarettes become less affordable since 2008? Yes Did cigarettes become less affordable between 2014 and 2016? **No**¹⁰

9 Note that a higher percentage means it is less affordable, which discourages cigarette smoking.
10 Cigarettes became more expensive between 2012 and 2014, then became more affordable between 2014 and 2016.

| SUPPLEMENTARY INFORMATION ON TAXES | |
|---|-------------------------|
| Are tax stamps or bar codes required for tobacco products? | Νο |
| Are duty-free sales banned or limited? | Limit of 200 cigarettes |
| Is tobacco tax revenue pre-allocated to a specific purpose or activity? | No |
| Date wetwood at a second label. | |
