**ABRAHAM HORWITZ AWARD FOR INTER-AMERICAN HEALTH**

The Director of the Pan American Health Organization is pleased to announce that the Abraham Horwitz Award for Inter-American Health, 1995, will be presented during the XXXVIII Meeting of the Directing Council. The Award is administered by the Pan American Health and Education Foundation (PAHEF).

PAHEF is a collaborating partner of PAHO, incorporated as a legally independent, nongovernmental, tax-deductible organization under the laws of the District of Columbia (USA). It was created mainly to advance the fundamental objectives of the Pan American Health Organization, principally by mobilizing resources not directly available to PAHO and using them to finance health programs jointly with PAHO/WHO and by collaborating with the latter in project design and execution. PAHEF receives contributions from private foundations, companies, and individuals to finance a variety of health projects. PAHEF also provides the capital for a joint program with PAHO for textbooks and instructional materials for health personnel at all levels, deriving its funds from two Inter-American Development Bank loans for this purpose. PAHEF is governed by a 13-member Board of Trustees.

PAHEF has established bylaws to "govern and guide the use of a fund contributed by friends of Dr. Abraham Horwitz, Director Emeritus of the Pan American Sanitary Bureau, to recognize his outstanding contribution to health in the Americas by periodically presenting an award or sponsoring a scientific conference."

According to the bylaws, "the fund will be administered by the Pan American Health and Education Foundation (PAHEF), which will receive voluntary contributions and hold them in a special fund for purposes of the award." There will be an Awards Committee consisting of five members, including two designated by the Director of

PAHO and three selected by the Board of Trustees of PAHEF, which will also designate the Chairman.

Ministers of health, staff members of PAHO, and friends of PAHO and PAHEF are invited annually to submit the nomination of an individual or a group of persons for scientific or pedagogic achievement in any field of health, with emphasis on the effect on inter-American health rather than on a single country. The Awards Committee recommends a selection to the Board of Trustees for approval. To the extent possible, the date and place of the award ceremony coincide with those of the meeting of the PAHO Directing Council or Pan American Sanitary Conference, and the President of the Governing Body is invited to preside and present the award. The awardee is expected to give a lecture.

Dr. Jorge Mardones Restat, of Chile, has been selected to receive the 1995 Award for the important role he played in the creation of the national health service of his country, for his distinguished academic career, and for other praiseworthy initiatives in the field of public health.

This document is submitted for the information of the delegates of the PAHO Member States to the XXXVIII Meeting of the Directing Council.

#### Previous Award Winners
