

**Webinar
Día Internacional de lucha
contra el Cáncer Infantil
2022**

Tools for Assessment and Implementation of Strategies within the Global Initiative for Childhood Cancer

Alejandra Gonzalez Ruiz MD, MIH

Coordinator of the Health Systems Unit and the PAHO/WHO Collaborating Center for
Childhood Cancer

Department of Global Pediatric Medicine
St. Jude Children's Research Hospital

February 15th, 2022

Agenda (20 min.)

1. Introduction

- PAHO/WHO Collaborating Centers
- St. Jude Children's Research Hospital and St. Jude Global
- St. Jude Global's Role as PAHO/WHO Collaborating Center for Childhood Cancer

2. Examples of collaborative work with PAHO/WHO:

- Tools for the Evaluation and Implementation of Strategies within the Global Initiative for Childhood Cancer

Introduction

St. Jude Children's
Research Hospital

WHO Collaborating Centre
For Childhood Cancer

Collaborating Centres of the World Health Organization (WHO)

Institutions designated by the WHO Director-General to provide strategic support to the Organization's programme at the national, inter-country, regional, interregional and global levels to carry out two key areas:

1. Implementation of the work and programme objectives set by WHO
2. Develop and strengthen institutional capacity in countries and regions*

**St. Jude Global designated as
PAHO/WHO Collaborating Center for Childhood Cancer
(2018-2022)**

WHO Global Initiative for Childhood Cancer

Global effort aimed at achieving at least a 60% survival rate for children with cancer by 2030, thus saving one million more lives

St. Jude Children's Research Hospital and St. Jude Global – PAHO/WHO Collaborating Center for Childhood Cancer

Advancing cures for catastrophic pediatric diseases through research and treatment

St. Jude Global

Improve survival rates for children with cancer and other catastrophic diseases worldwide through education, program development, and research

Support WHO in 3 guiding axes:

Inclusion of childhood cancer in national cancer control plans

Dissemination of Innovation in Health Systems and commitment of leaders

Technical Support and Participation of Global and Regional Actors

ST. JUDE GLOBAL HEALTH SYSTEMS

Centre for Childhood Cancer

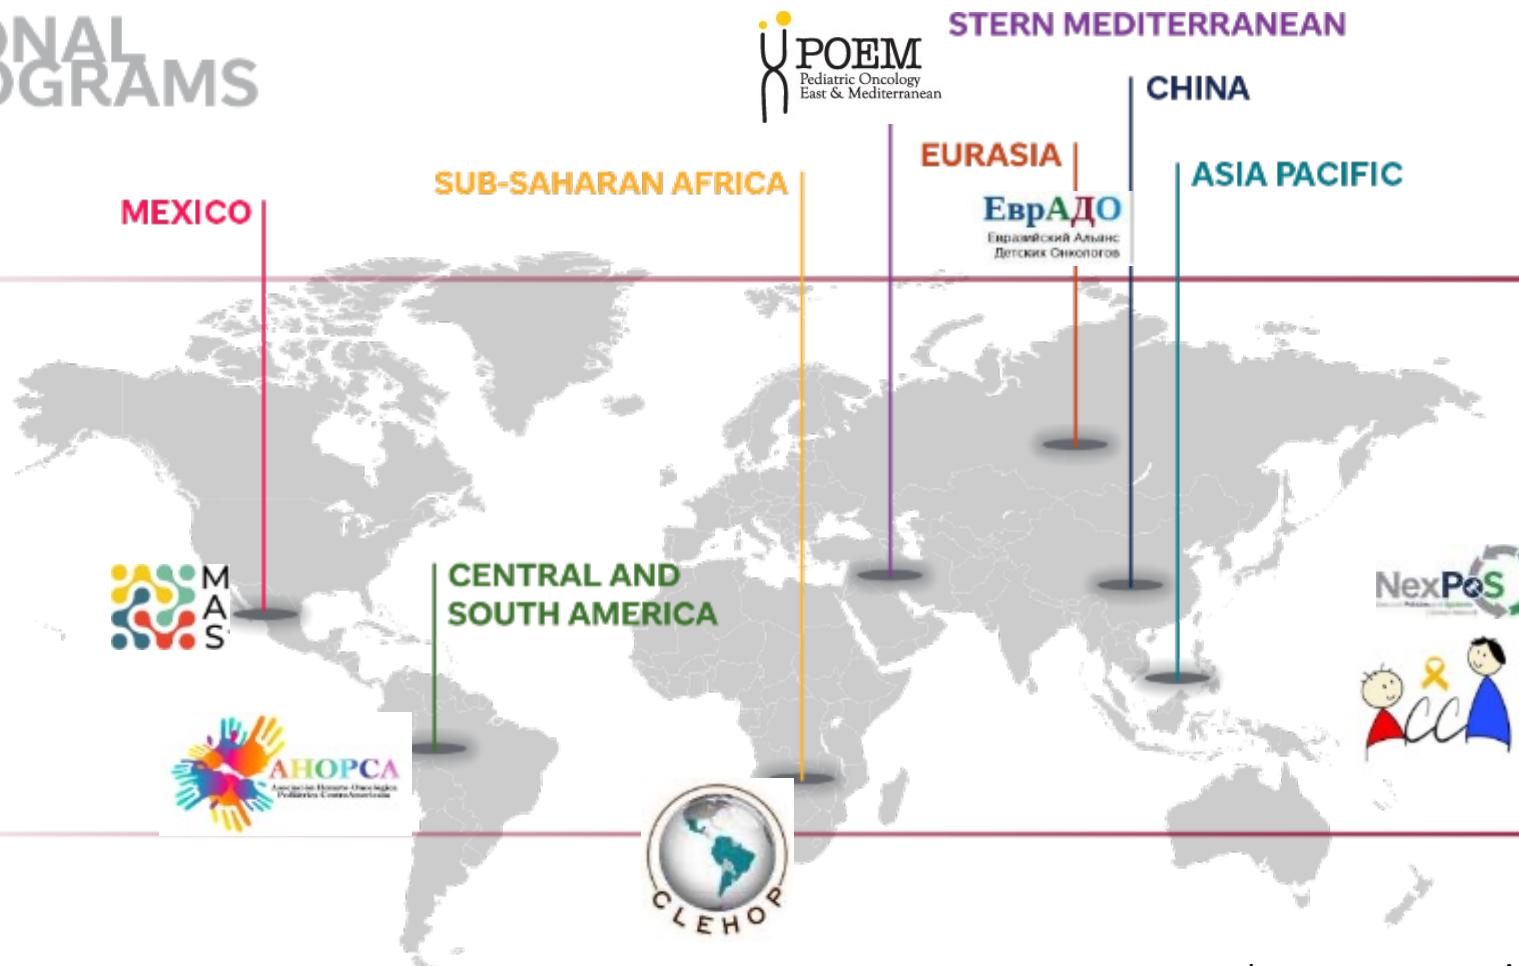

Wendy Archibald
Administrative Specialist

The St. Jude Global Health Systems Unit serves as the coordinating unit for the PAHO/WHO Collaborating Center for Childhood Cancer

St. Jude Global Regional and Transversal Programs

REGIONAL PROGRAMS

The **regional model**: efficient and effective organizational structure for implementation

TRANSVERSAL PROGRAMS

The **transversal approach**: resources to accelerate implementation and collaborations for global capacity building, education and research

St. Jude Global as WHO Collaborating Centre for Childhood Cancer

Facilitating activities across WHO Headquarters, Regional and Country Offices and St. Jude Global Regional Programs

Tools for the Evaluation and Implementation of Strategies within the Global Initiative for Childhood Cancer

Examples of collaborative work with PAHO/WHO

St. Jude Children's
Research Hospital

WHO Collaborating Centre
For Childhood Cancer

Example 1

Inclusion of childhood cancer in national cancer control plans

How can we strengthen health systems to improve care for children with cancer?

SJCARES Systems: toolkit designed to assess the health systems environment to scale up childhood cancer control through systems thinking and systems strengthening

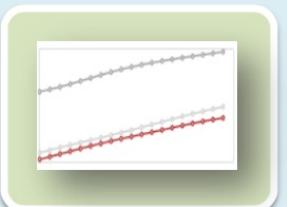

Country Collaboration Tool for Childhood Cancer Control (C5)
Participatory mapping tool designed to help decision-makers in the country identify collaborative efforts to strengthen health systems

Country Collaboration for Childhood Cancer Control Tool (C5)

c1: National Context and Indicators

c2: Mapped Institutions, Organizations & Roles

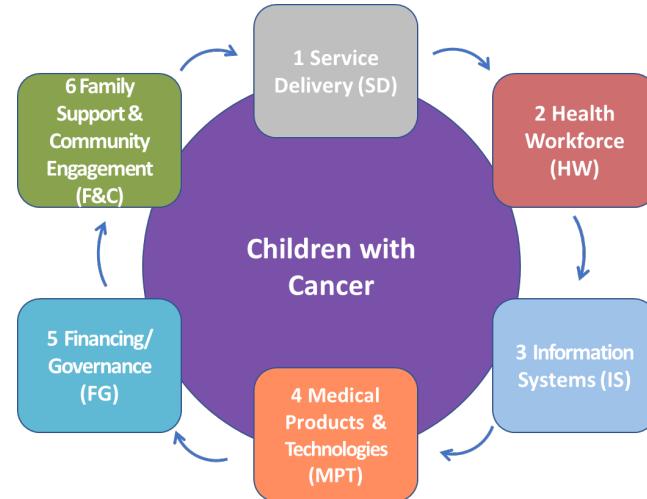

c3: National SWOT

c4: Health Systems Key Areas Matrices

c5: Priority Collaborative Portfolios

A Tool for Mapping National and Regional Health Systems Strengthening and Collaborations

PAHO and St. Jude Global Workshop

Global Initiative for Childhood Cancer:

"How I Live"

Objective: As part of the Global Initiative for Childhood Cancer (GICC), PAHO and St. Jude Global will provide support to the members of the committees of the National Pediatric Cancer Plan of **Guatemala, Nicaragua, Honduras, El Salvador, Panama, Costa Rica, Dominican Republic and Haiti** in the process of implementing their activities prioritized within the National Plan for Pediatric Cancer or activities within the Regional Initiative for the SE-COMISCA for the Integral Approach of Cancer in Childhood and Adolescence

c5

c5: Priority Collaborative Portfolios

Agosto 2021

c1 > c2 > c3 > c4 > c5

Pre-workshop activities

- Each Committee of National Pediatric Cancer Plans (NSCLC) from each of the 8 countries sent 10-15 priority activities across the 6 health blocks**
- Each member of the 8 NSCLCs individually responded to a survey by assigning a score to the value* and political will* of each of the priority activities**
- PAHO and St. Jude developed the corresponding Value and Political Will Matrices by country**

Actividades dentro de la Iniciativa Regional SE-COMISCA para la Salud Básica en los Niños y Adolescentes para el Fortalecimiento Integral del Cáncer en Niños y Adolescentes SE-COMISCA para el fortalecimiento integral de los sistemas de salud en los próximos 2-4 años - Guatemala

Value Matrix and Political Will: a tool for the identification of high priority projects

c5

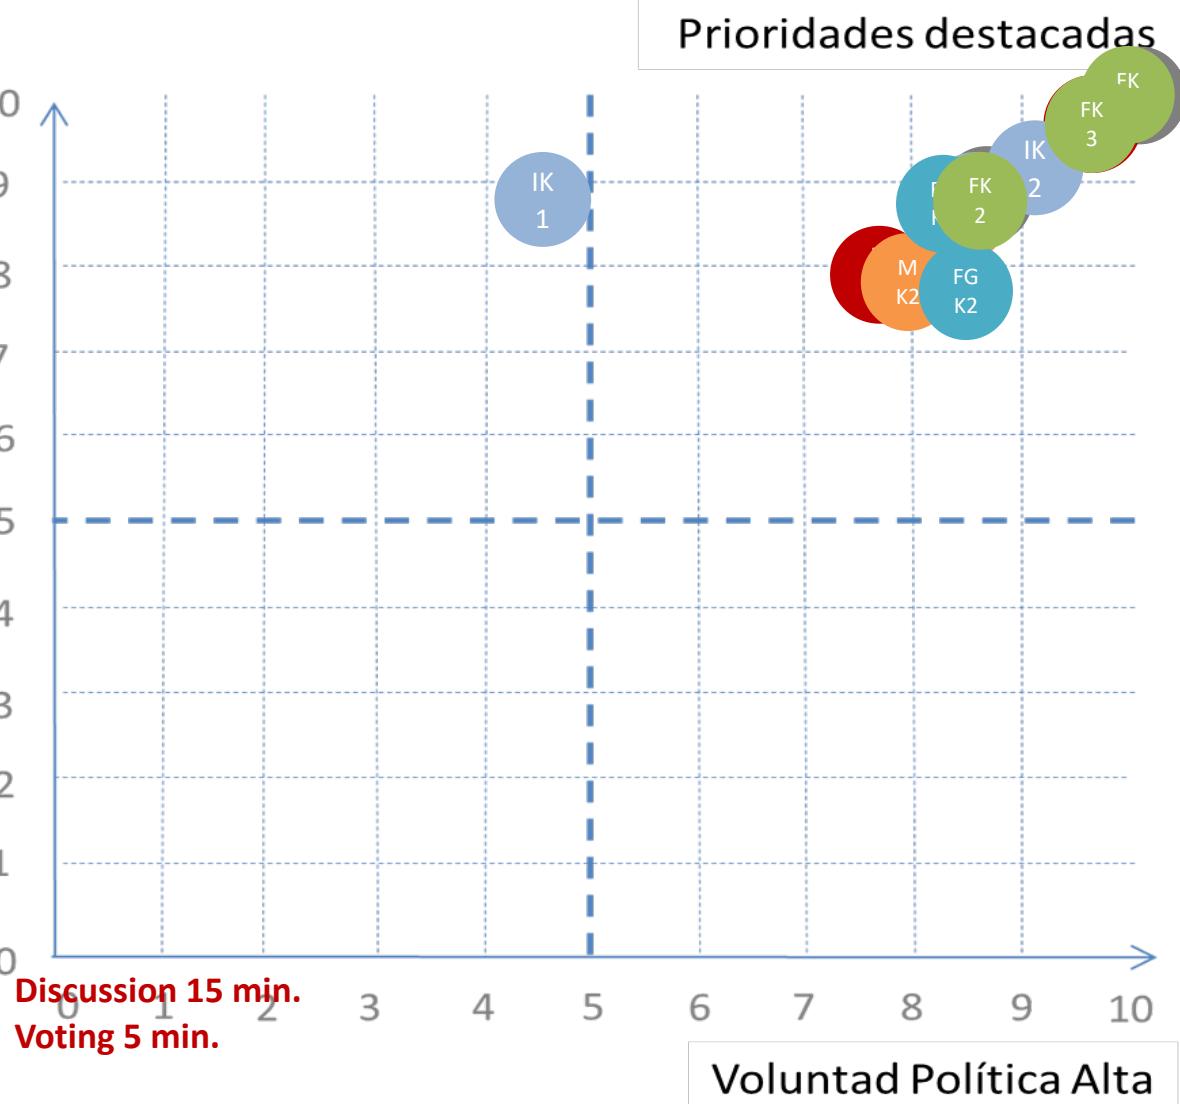

c5:
Portafolios
colaborativos
prioritarios

Example: Value Matrix and Political Will:

15 key activities in the next 1-2 years for the strengthening of the health system within the PNCP in country A

SK = key area of service delivery, HK = key area of health personnel, IK = key area of information systems, MK = key area of medical products and technologies, FGK = key area of funding / governance, FK = key area of family support and community participation

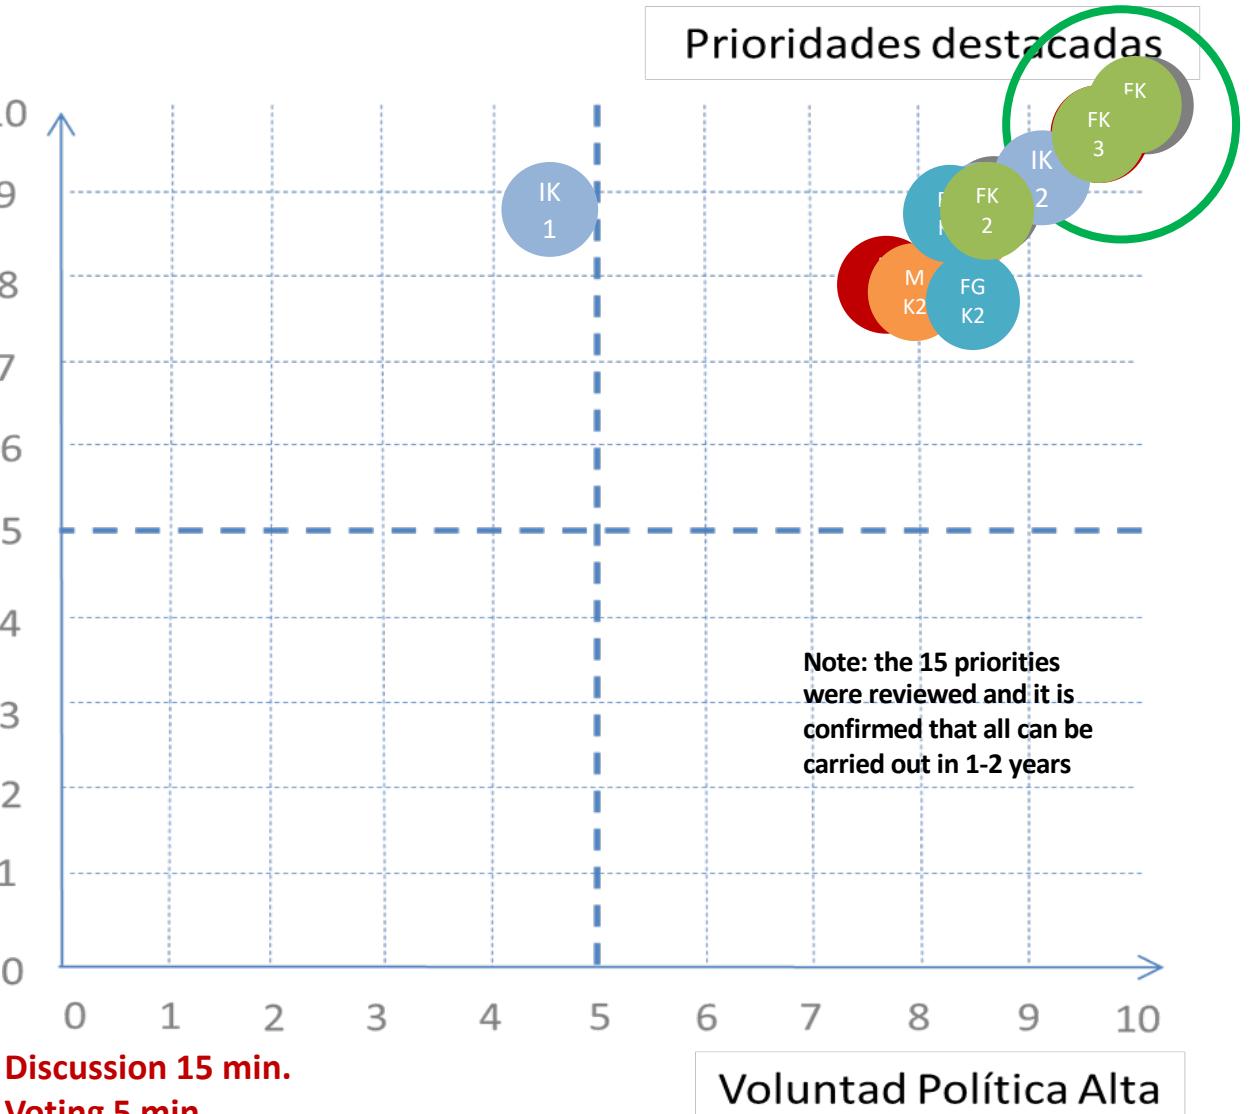

15 actividades clave en los próximos 1-2 años para el fortalecimiento del sistema de salud dentro del PNCP en el País A

	Valor	VP
SK1 Desarrollar estrategias de detección temprana, diagnóstico certero y tratamiento oportuno.	9.8	9.8
SK2 Elaboración de Guías y protocolos de manejo integral del niño, niñas y adolescente con cáncer más frecuente en el país	8.6	8.7
SK3 Coordinación entre el Programa de Salud mental del MSP y del Departamento psicosocial del SNS para brindar apoyo oportuno a niños con cáncer y sus familias.	8.2	7.9
HK1 Convenio con las principales universidades para la Incorporación de la materia de cáncer infantil (oncopediatria) en la escuela de medicina y en las residencias médicas	7.8	7.7
HK2 Elaboración y ejecución de un plan de capacitación continua dirigida al personal del primer nivel de atención sobre cáncer infantil y los factores de riesgo que afectan la sobrevida de los niños.	9.5	9.6
MK1 Desarrollar Guías de Práctica Clínica y Protocolos clínicos con las pautas terapéuticas basadas en evidencia científica.	8.3	8.5
MK2 Elaborar una propuesta para la compra conjunta de medicamentos	7.8	8.0
IK1 Creación de un registro nacional de cáncer infantil de carácter obligatorio	8.8	4.6
IK2 Diseño y ejecución de una campaña nacional de comunicación sobre el cáncer infantil	9.0	9.3
IK3 Elaborar un instrumento de monitoreo con definición de línea de base, metas, indicadores e instrumentos de medición, consolidación y análisis estadístico	8.7	8.8
FGK1 Proyecto para la movilización de recurso mediante iniciativas publica y privadas	8.6	8.1
FGK2 Fortalecimiento y promoción de medidas multisectoriales con todos los sectores pertinentes de las instituciones del Estado, la sociedad civil, el sector no gubernamental y privado	7.7	8.5
FK1 Manual de detección temprana para el cáncer infantil y Flujograma de referimiento del paciente con cáncer infantil elaborado.	9.8	9.6
FK2 Creación mecanismos de difusión de los datos, para la mejora, de los servicios, así como de mejoras en las políticas.	8.7	8.8
FK3 Elaborar material educativo para el público en general sobre cáncer infantil dirigido a la concientización de niños y adolescentes.	9.5	9.6

Example: Value Matrix and Political Will:

15 key activities in the next 1-2 years for the strengthening of the health system within the PNCP in country A

15 key activities in the next 1-2 years for the strengthening of the health system within the PNCP in Country A

	Valor	VP
SK1 Desarrollar estrategias de detección temprana, diagnóstico certero y tratamiento oportuno.	9.8	9.8

SK1 Desarrollar estrategias de detección temprana, diagnóstico certero y tratamiento oportuno.

9.8 9.8

SK2 Elaboración de Guías y protocolos de manejo integral del niño, niñas y adolescente con cáncer más frecuente en el país

8.6 8.7

SK3 Coordinación entre el Programa de Salud mental del MSP y del Departamento psicosocial del SNS para brindar apoyo oportuno a niños con cáncer y sus familias.

8.2 7.9

HK1 Convenio con las principales universidades para la Incorporación de la materia de cáncer infantil (oncopediatria) en la escuela de medicina y en las residencias médicas

7.8 7.7

HK2 Elaboración y ejecución de un plan de capacitación continua dirigida al personal del primer nivel de atención sobre cáncer infantil y los factores de riesgo que afectan la sobrevida de los niños.

9.5 9.6

MK1 Desarrollar Guías de Práctica Clínica y Protocolos clínicos con las pautas terapéuticas basadas en evidencia científica.

8.3 8.5

Nombre del país:
País A

Prioridad:
HK2 Elaboración y ejecución de un plan de capacitación continua dirigida al personal del primer nivel de atención sobre cáncer infantil y los factores de riesgo que afectan la sobrevida de los niños.

Propuesta de acción o actividad para lograr los resultados esperados
Elaboración de talleres vía virtual y consenso del contenido curricular de los mismos

Entregable: producto directo, tangible y verificable de las actividades
Talleres híbridos - Plataforma virtual (videos, protocolos) y modalidad presencial

Resultado (cambio y/o impacto esperado a corto, mediano o largo plazo)
Llegar a la mayor parte de la población del personal del primer nivel de atención de cáncer infantil para educar y concientizar sobre la detección temprana de los pacientes que presenten algún tipo de cáncer para reducir el tiempo de espera y fortalecer y formalizar la referencia y contrarreferencia de los pacientes

¿Cuál es la historia de su país que contaría para ganar el apoyo de otros colaboradores?
No es solamente ampollas de quimioterapia, el niño se tiene que curar con todo un soporte y estrategia integral de atención. Documentar el camino que sigue un niño desde su diagnóstico hasta el inicio de tratamiento – vivencia económica, social hasta llegar al Dx adecuado, Tx, y la odisea laboral y escolar de su familia

WHO & St. Jude Global, Global Initiative for Childhood Cancer Pre-Biennium Strategic Planning Event

December 2021

Global Initiative for Childhood Cancer Pre-Biennium Strategic Planning Event Dec 1 & 7, 2021

Objectives: At the end of the two day session, participants will have shared challenges and gaps when implementing CureAll activities, and strategic plans to strengthen collaboration with St. Jude programmes as part of plans for the 2 year plan(2022-2023).

WHO Global Initiative for Childhood Cancer: Different Levels of Country Engagement

WHO Global Initiative for Childhood Cancer Activities

Key level of engagement in the Global Initiative for Childhood Cancer

Analysis of cancer health system

Phases of country action (current status)

INSTRUCTIONS
From the activities identified in Section 6 (Day 1) that you anticipate continuing/expanding in 2022-2023 and accomplish by June 2023 please duplicate and copy paste in the section below.

Activities for Day 2 - December 7th, 2021

Consensus on Next Steps that need to be accomplished by 2023

Instructions
Using the 10 CureAll Core Projects Framework, this section will help prioritize the areas of collaboration of WHO HQ, WHO RO, St. Jude Regional Program and Identify Opportunities for the WHO Global Initiative for Childhood Cancer implementation during Phase I.
Using the 10 CureAll Core Projects Framework:
 a) Select the activities/projects from section 5 that will continue or start in the new biennium 2022-2023 and be completed by June 2023.
 b) Define the current state of phase of country action of each selected activity/project (not yet started, assessment, plan, implementation, or completed).
 c) Define regional initiatives that will continue or start in the next biennium 2022-2023.
 d) Define which have been the challenges and gaps in the implementation during phase 1.
 Note: Before returning to the general session (the operations team will help you):
 • Select a representative to share the section with the other members of the group
 • Co-Facilitator: please record the team's key takeaways, agreements and next steps
 • Facilitator: please share your screen while presenting and send the ZOOM recording to cureall@stjude.org
 • Do a quick check out on how everyone is feeling
