

# LISTS OF VALIDATED AUTOMATED BLOOD PRESSURE MEASURING DEVICES

REGISTRY	DESCRIPTION	WEBSITE
<b>Stride BP</b>	Stride is an international scientific non-profit organization founded by hypertension experts with the mission of improving the accuracy of blood pressure measurement and the diagnosis and management of hypertension. STRIDE BP provides international guidance and practice tools on the methodology and technology for accurate blood pressure evaluation according to the latest scientific evidence. StrideBP is co-sponsored by the European Society of Hypertension and the International Society of Hypertension.	<a href="https://stridebp.org/bp-monitors">https://stridebp.org/bp-monitors</a>
<b>Validate BP</b>	An independent process was designed to determine which BP devices available in the U.S. meet the American Medical Association (AMA)'s established criteria to validate clinical accuracy. This review process results in a formal list of BP devices (the "Validated Device Listing" or "VDL"). AMA does not receive funding from manufacturers.	<a href="https://www.validatebp.org">https://www.validatebp.org</a>
<b>BHIS</b>	All monitors on the 'Home' and 'Specialist Use' lists have been approved by the British and Irish Hypertension Society (BHIS) for accuracy. The list also includes non-validated devices. Those bearing the BHIS logo have been tested in-house. The rest have been tested by independent agencies, their published reports have been peer-reviewed and approved by the BHIS.	<a href="https://bihsoc.org/bp-monitors">https://bihsoc.org/bp-monitors</a>
<b>Medaval</b>	Medaval is a company that assesses and lists both validated and non-validated blood pressure devices available globally. It has the largest database. Assessment of validation status is performed according to international scientific protocols. Certification of validation according to current accuracy assessment protocols is provided by Medaval on application and payment by manufacturers. Validation and comparative-equivalence reports are peer reviewed by members from its reviewer panels. It also provides links to the recommendations of other validated device listings.	<a href="https://medaval.ie/">https://medaval.ie/</a>
