	I. PAN AMERICAN NETWORK	
	I.1. Vision	
	That countries from the Region of the Americas implement pharmaceutical policies promoting access to medicines coherent with standards of quality, safety and efficacy, and pharmaceutical harmonization within the Region of the Americas through technical cooperation, contributing to the quality of life and health care of its citizens.	The article was agreed during the Steering Committee Meeting of August 1 2008, however COFEPRIS suggested the current text with the following observations: it is important that the Vision reflect the 'essence' of PANDHR, that it guides us to where we want to go considering the different scenarios that are present within the Region of the Americas.
	I.2 Mission	
	To promote the harmonization of pharmaceutical regulation covering aspects of quality, safety, efficacy and rational use of pharmaceutical products, the strengthening of NRA capacity within the Region of the Americas based on the right of the population to access quality medicines recognizing advances in science and technology and within the context of national and sub-regional realities.	Agreed in the Steering Committee Meeting of August 1 2008.
