What am I?
I’m a deer tick and I can transmit Lyme disease.

What is Lyme Disease?
It’s a disease that can cause a skin rash, fever, and other symptoms.

Where can I be found?
I can be found in North America, Europe and Asia.

What can you do to prevent this disease?
› Use insect repellent
› Wear light-colored shirts and trousers
› Examine your clothing and body for ticks and promptly remove them using tweezers.

Send us your art to events@paho.org and we will feature it in our website
