Progress Indicators

Consider setting national NCD targets for 2025:

- 1** Member State has set time-bound national targets based on WHO
- 2** Member State has a functioning system for generating reliable cause-specific mortality data on a routine basis
- 3** Member State has a STEPS survey or a comprehensive health examination survey every 5 years

Consider developing national multisectoral policies and plans to achieve the national targets by 2025:

- 4** Member State has an operational multisectoral national strategy/action plan that integrates the major NCDs and their shared risk factors

Reduce risk factors for NCDs, building on guidance set out in the WHO Global NCD Action Plan:

- 5** Member State has implemented the following five demand-reduction measures of the WHO FCTC at the highest level of achievement:
 - a** Reduce affordability by increasing excise taxes and prices on tobacco products
 - b** Eliminate exposure to second-hand tobacco smoke in all indoor workplaces, public places and public transport
 - c** Implement plain/standardized packaging and/or large graphic health warnings on all tobacco packages
 - d** Enact and enforce comprehensive bans on tobacco advertising, promotion and sponsorship (TAPS)
 - e** Implement effective mass media campaigns that educate the public about the harms of smoking/tobacco use and second hand smoke

- 6** Member State has implemented, as appropriate according to national circumstances, the following three measures to reduce the harmful use of alcohol as per the WHO Global Strategy to Reduce the Harmful Use of Alcohol:

- a** Enact and enforce restrictions on the physical availability of retailed alcohol (via reduced hours of sale)
- b** Enact and enforce bans or comprehensive restrictions on exposure to alcohol advertising (across multiple types of media)
- c** Increase excise taxes on alcoholic beverages

- 7** Member State has implemented the following four measures to reduce unhealthy diets:

- a** Adopt national policies to reduce population salt/sodium consumption
- b** Adopt national policies that limit saturated fatty acids and virtually eliminate industrially produced trans fatty acids in the food supply
- c** WHO set of recommendations on marketing of foods and non-alcoholic beverages to children
- d** Legislation /regulations fully implementing the International Code of Marketing of Breast-milk Substitutes

- 8** Member State has implemented at least one recent national public awareness and motivational communication for physical activity, including mass media campaigns for physical activity behavioural change

Strengthen health systems to address NCDs through people-centred primary health care and universal health coverage, building on guidance set out in WHO Global NCD Action Plan:

- 9** Member State has evidence-based national guidelines/protocols/standards for the management of major NCDs through a primary care approach, recognized/approved by government or competent authorities
- 10** Member State has provision of drug therapy, including glycaemic control, and counselling for eligible persons at high risk to prevent heart attacks and strokes, with emphasis on the primary care level

Cut-off dates of data collection:

Indicators 1, 3, 4, 7a, 7b, 7c, 8, 9 and 10: June 2017

Indicator 2: December 2015

Indicator 5a: July 2016

Indicators 5b, 5c and 5d: December 2016

Indicator 5e: June 2016

Indicator 6: March 2017

Indicator 7d: March 2016
