WHO holds weekly technical coordination meetings with travel, aviation and tourism sectors, in addition to updated guidance and online courses on point of entry, including management of ill travelers, managing outbreaks on board ships and in aviation, and on mass gatherings.

Since January, EPI-WIN has been engaging with some of the most vital sectors, including travel and tourism, involved in the COVID-19 response through amplification webinars, which have broaden global reach of WHO’s life-saving risk communication messages significantly.

WHO, the International Maritime Organization (IMO) and the International Labour Organization (ILO), in cooperation with international seafarers’ and shipowners’ organizations, are working together to ensure the ability of shipping and seafarers to continue to deliver vital goods, including medical supplies and food.

The UN International Civil Aviation Organization (ICAO) published an analysis of the economic impact of COVID-19 on civil aviation here. Airport Council International has also published a survey of good practices at major airports on operations during COVID-19, available here. The International Air Transport Association (IATA) has recently published a Quick Reference Guide for Ground Handling during COVID-19, which can be found here.

**Table 1:** COVID-19 status in Barbados and Eastern Caribbean Countries, French Territories and United Kingdom Overseas Territories. ‘Sporadic cases only’ indicates countries/territories/areas with one or more cases, imported or locally detected. ‘Cluster of cases’ indicates countries/territories/areas experiencing cases clustered in time, geographic location and/or by common exposures.

*Data in red new.*

*Disclaimer:* Data is updated by 5:00PM each day and there could be delays in reporting. Any discrepancies from national data figures will be edited on the next issue.
Handover of COVID-19 supplies in Dominica

After delivery of critical COVID-19 supplies to Dominica by the Regional Security System, 16 boxes containing 395 Personal Protective Equipment (PPE) kits were handed over to Mrs Jasmine Lambert, Supplies Manager, Dominica Medical Stores Department, by PAHO Country Program Specialist in Dominica, Ms Anneke Wilson.
