

## COVID-19 Situation Update - 133

09 July 2021

This situation update is on the Novel Coronavirus (COVID-19) reported cases, deaths and related vaccination status, Globally, Regionally, for Barbados and the Eastern Caribbean Countries, French Territories, and the United Kingdom Overseas Territories.

### PAHO Director calls for fair and broad access to COVID-19 vaccines for Latin America and the Caribbean

*Notes that Region is still reporting over half of the deaths registered globally, but only 3% of the population in some countries in South and Central America have been fully vaccinated so far.*

*Washington, D.C., July 7, 2021 (PAHO) – Pan American Health Organization Director Carissa F. Etienne today called for increased supplies of COVID-19 vaccines for the Americas, noting that “Millions of people in Latin America and the Caribbean still don’t know when they will have a chance to be immunized.”*

*“Some countries in South and Central America, where the pandemic has hit particularly hard, have not yet been able to access enough vaccines to fully vaccinate 3%*

*of their populations,” Dr. Etienne told reporters at her weekly media briefing.*

*She said “PAHO has urged nations with enough vaccines to share them with countries in the Americas that are still struggling. That call is starting to resonate.”*

*Dr. Etienne noted that “dose donations are helping COVAX substantially expand the availability of vaccines in the next round, with some 60 million doses coming from the United States and over 11 million from Japan, contributing to the expected allocation of some 143 million doses.”*

*“While we must rely on donations in the short-term, we are already planning for a future scenario in*

### Region of the Americas

**73,383,686**  
cases

**1,929,117**  
*deaths in*  
**56**  
*countries, areas, or territories*

**648,894,123**  
*total vaccine doses administered*

### Global

**185,291,530**  
cases

**4,010,834**  
*deaths in*  
**236**  
*countries, areas, or territories*

**3,078,787,056**  
*total vaccine doses administered*

*which more supply will be available. PAHO is mapping the demand deficit from our Member States to determine how the Revolving Fund can support countries to meet their future goals with COVID vaccines and other supplies, such as syringes and cold chain equipment,” she added.*

The PAHO Director said the 24 million doses of COVAX deployed in the Region so far “have been quickly put to use, and countries are eager for the additional allocations to ship as soon as supplies are available. [Read more...](#)

## COVID-19 highlights:

COUNTRY	COVID-19 HIGHLIGHT
Antigua and Barbuda	Fully vaccinated nationals and residents returning home after taking a negative PCR test on their departure from the city which the aircraft comes, will be allowed to proceed to their homes unimpeded. ## Vaccines Campaign

In most countries, vaccinations are not mandatory and thus public willingness to be vaccinated against COVID-19 is of high priority to achieve the goal of reaching herd immunity. As we seek to tackle vaccine hesitancy related to COVID-19 vaccines in the Caribbean and in keeping with the request made by some member states, the Pan American Health Organization (PAHO) in collaboration with the United Nations Children's Emergency Fund (UNICEF) have developed [communication materials](#) to address some of the gaps in knowledge and concerns on the COVID-19 vaccines. Launched 21 May 2021, these communication materials include videos, social media cards, and radio public service announcements. The main topics covered are:

- How vaccines are developed
- How vaccines work
- Vaccine safety
- Side effects of vaccines
- The benefits of vaccines
