^jAfter retrospective review, laboratory-confirmed cases was adjusted by the El Salvador IHR National Focal Point as of 25 August 2016.

^kAfter retrospective review, laboratory-confirmed cases were re-classified as imported cases by the Panama Ministry of Health as of 25 August 2016.

^lPer the Cure Antilles Guyane Bulletin the epidemiological situation is classified in four level phases: Level 1 absence of autochthonous circulation; Level 2 initial autochthonous transmission; Level 3 epidemic; Level 4 end of epidemic and results. In the instance that a territory reaches Level 3, the data on all confirmed cases is no longer included in the epidemiological bulletin. Martinique was classified as Level 3 since 20 January 2016. Parts of French Guiana were classified as Level 3 on 22 January 2016 and 1 April 2016. Guadeloupe was classified as Level 3 since 28 April 2016.

^mAfter retrospective review, only laboratory-confirmed cases were included in the confirmed Zika cases for Ecuador. As of 18 August, previously reported non-laboratory-confirmed cases were included in the suspected Zika cases. As of 25 August, imported Zika cases was lowered, and as of 8 September, suspected Zika cases was lowered by the Ecuador Ministry of Health through the Epidemiological Bulletin.

ⁿAfter retrospective review, laboratory-confirmed cases was adjusted by the Venezuela (Bolivarian Republic of) IHR National Focal Point as of 25 August 2016.

^oBrazil Ministry of Health case definition for confirmed cases of congenital syndrome associated with Zika virus infection includes confirmed and probable cases per PAHO's case definition. As of EW 37 of 2016, 321 cases were confirmed for Zika virus by laboratory criteria. Information on Suspected and confirmed Zika cases is available at: <http://portalsaudef.saude.gov.br/images/pdf/2016/setembro/16/2016-028---Dengue-SE32.pdf>

^pThe data provided herein is the sum of cases reported for Bonaire (20), Sint Eustatius (16) and Saba (9).

^qPer information shared by the Netherlands IHR NFP to PAHO/WHO, the confirmed Zika cases was adjusted for Sint Maarten.
