1/4 of the global population is infected with latent tuberculosis.

10-15% will go on to develop TB disease.

PRIORITY RISK GROUPS:
- Child contacts under 5 years
- People living with HIV
- Receiving organ or haematological transplantation
- Receiving dialysis
- Receiving anti-TNF treatment
- Have silicosis

SETTING/CONTEXT:
- Contacts 5 years old and older
- Homeless
- Health-care workers
- People who use drugs
- In prison

It's time for action. It's time to #EndTB.
