

Brasilia, 21 January 2019
(Rev. 8 February 2019)

Information Note

Subject: Note introduction of the **electronically-issued International Certificate of Vaccination or Prophylaxis (ICVP)** by Brazil

This Information Note is to inform that, in compliance with Article 36 and Annex 6 of the International Health Regulations (IHR), starting in January 2019, Brazil has introduced the procedure for electronically issuing International Certificate of Vaccination or Prophylaxis (ICVP).

The advantages related to this procedure include enabling: (i) the traveler to print the ICVP, electronically signed by the supervising clinician/health worker, anywhere in world; and (ii) Health Authorities worldwide to verify the authenticity of the ICVP carried by the traveler by typing a sixteen (16) digits unique authentication code on the following web page of the Government of Brazil:

<https://mpdg-hom-orgaoa.lecom.com.br/bpm/app/public/consultaDocumentos>.

Therefore, in order to avoid unnecessary inconveniences to Brazilian nationals, or other international travelers carrying the ICVP electronically issued by Brazil, Health Authorities of Brazil are inviting Health Authorities of States Parties to the IHR, which require the ICVP as a condition for entry, to inform relevant authorities at points of entry, airlines operating in their territory, as well as other conveyances operators, about the change introduced by Brazil.

Health Authorities of Brazil wish to inform that ICVP issued prior to 29 January 2019 in a format different from that presented in Appendix I are valid.

Appendix I presents an example of the electronically-issued ICVP, with the following features to be noted:

1. It contains all the information as per Annex 6 of the IHR.
2. It is in two languages: Portuguese and English.
3. The signature of the supervising clinician/health care worker is electronic.
4. The official stamp of the administering centre is electronic.
5. The electronically-signed ICVP contains a sixteen (16) digits unique authentication code, displayed on the right side of the document, through which the authenticity of the document can be verified online.
6. The electronically-issued ICVP must be printed by the holder on A4 or ANSI Letter size paper, one sided. Hence, the electronically-issued ICVP will not have a cover of any sort.
7. The printed ICVP must be signed by the holder, in handwriting and in the dedicated space, to allow for the verification of the traveller's identity against his/her identification travel document.

The steps for the verification of the authenticity of the electronically-issued ICVP (see also **Appendix II**), are the following:

1. The link to the web page of the Government of Brazil to be accessed to verify the authenticity of the ICVP (<https://mpdg-hom-orgaoa.lecom.com.br/bpm/app/public/consultaDocumentos>) is indicated in the ICVP both, at the bottom and on the right side of the document.
2. Once accessed the link, by clicking on the relevant flag, displayed in the upper right corner, the web page can be available in English, Portuguese, and Spanish.
3. The sixteen (16) digits unique authentication code, indicated on the ICVP, should be typed in the field labelled "Signed Document Code".
4. The automatically generated Captcha code should be typed in the dedicated field and then click on the "Search" button.

Any inquiry regarding this Information Note should be addressed to: gimtv@anvisa.gov.br.

YELLOW FEVER	1-OCT-2018	Matheus Silva	Fiorucci N° 129VFC049Z	11 - OCT - 2018 à LIFE	

Este certificado é válido apenas se a vacina ou profilaxia utilizada foi aprovada pela Organização Mundial da Saúde. Os certificados devem ser assinados de próprio punho por um clínico que supervisione a administração da vacina ou o tratamento profilático, que deverá ser um médico ou outro agente de saúde autorizado. Os certificados devem ter também o selo oficial do centro administrador; no entanto, o selo oficial não substitui a assinatura. Qualquer emenda ou rasura neste certificado ou falta de qualquer informação poderão torná-lo inválido. A validade deste certificado pode ser estendida até a data indicada para a vacinação ou profilaxia. O certificado deve ser escrito em inglês ou em francês. O certificado pode também ser preenchido em outra língua no mesmo documento, além do inglês ou francês.

This certificate is valid only if the vaccine or prophylaxis used has been approved by the World Health Organization. This certificate must be signed in the hand of the clinician, who shall be a medical practitioner or other authorized health worker, supervising the administration of the vaccine or prophylaxis. The certificate must also bear the official stamp of the administering centre; however, this shall not be an accepted substitute for a signature. Any amendment of this certificate, or erasure, or failure to complete any part of it may render it invalid. The validity of this certificate shall be extended until the date indicated for the particular vaccination or prophylaxis. The certificate shall be fully completed in English or in French. The certificate may also be completed in another language on the same document, in addition to either English or French.

Este documento foi assinado digitalmente. Para conferência acesse o site <https://mpdq-hom-orgaos.lecom.com.br/br/m/app-public/consultaDocumentos> e informe o código de dezesseis dígitos disposto na margem do documento.

This document has been digitally signed. To verify its authenticity go to <https://mpdq-hom-orgaos.lecom.com.br/br/m/app-public/consultaDocumentos> and type the 16 digits unique authentication code on the right side.

Este certificado é emitido gratuitamente e deverá ser assinado pelo viajante em conformidade com o documento nacional de identificação.

This certificate is issued free of charge and must be signed by the traveler according to the National identification document

The screenshot shows the 'Signed Documents Search' interface. At the top, there is a header with the Brazilian coat of arms and the text 'Signed Documents Search'. Below this is a search bar with a magnifying glass icon. The main search area contains a 'Search' label, a 'Signed Document Code' input field, and a 'Validation is Case Sensitive!' checkbox. A 'Search' button is located at the bottom right. Three red boxes with arrows point to specific features: one points to the 'Signed Document Code' input field, another points to the language selection icons (Brazil, USA, Spain), and a third points to a captcha image showing the characters '4r7na'.
