CONTEXT

Honduras was selected as the host country for America's World Blood Donor Day 2023 celebration (DMDS). As part of this festivity, the PAHO Regional Blood Program, in conjunction with Honduras PAHO/WHO's office, organizes a forum to exchange experiences and visions to highlight the relationship between access to safe blood, derivatives, and voluntary blood donation.

FORUM OBJECTIVES

- Facilitate the exchange of views and experiences concerning access to safe blood, the organization and sustainability of services, and voluntary blood donation.
- Aware of the impact and relevance of other factors behind voluntary blood donation, which affect access to safe blood.
- Facilitate the participation of different groups interested in access to safe blood, derivatives, and the DVS.
