

DOMINICAN REPUBLIC

Prevalence of tobacco use

Youth

POPULATION GROUP	CURRENT TOBACCO USE (SMOKED AND SMOKELESS) (%)	CURRENT CIGARETTE SMOKING (%)	CURRENT SMOKELESS TOBACCO USE (%)
Men	8.3	2.4	4.2
Women	6.0	1.8	2.3
Total	7.4	2.4	3.1

Source: Global Youth Tobacco Survey, 2016 (13-15 years).

Adults

POPULATION GROUP	CURRENT TOBACCO USE (SMOKED AND SMOKELESS) (%)	CURRENT CIGARETTE SMOKING (%)	CURRENT SMOKELESS TOBACCO USE (%)
Men	11.7	8.0	1.9
Women	4.6	3.9	0.3
Total

Source: For the current consumption of smoked tobacco and cigarettes, Demographic and Health Survey, 2014 (women, 15-49 years); for the current consumption of smokeless tobacco, Demographic and Family Health Survey, 2007 (women, 15-49 years).

MPOWER Measures

M (MONITORING)

Survey	Youth	Adults
Recent	Yes	Yes
National representativeness	Yes	No
Periodic	No	No

P (SMOKE-FREE POLICIES)

Health centers	Yes
Schools (except universities)	Yes
Universities	Yes
Government buildings	No
Offices	No
Restaurants	No
Bars and pubs	No
Public transportation	No

O (CESSATION)

Toll-free quitline	No	
Nicotinic substitution therapy is available in:	Are the costs covered?	
Pharmacies	No	
Cessation services are available in:	Are the costs covered?	
Primary care services	No	---
Hospitals	No	---
Doctor's offices	Yes, In most	No
The community	No	---
Other	En algunos	No

... Data not reported/not available

--- Data not required/not applicable

For definitions of the indicators and color-coded ratings, see the Technical Note.

W (WARNINGS)

Health warnings required by law	Yes
Images	No
Size (average-front/back)	^a
Ban on misleading terms	No
Is any feature missing?	Yes ^b

^a Not specified in the law.

^b For more information, see Table 8.

E (ADVERTISING BANS)

Ban on direct advertising	
Television, radio, and print media	No
Billboards	No
Publicity at points of sale	No
Ban on product placement	
Ban on promotion	No
Ban on sponsorship	No
Ban on product display	No

R (TAXATION)

Price of most sold brand (pack of 20 cigarettes)		
In national currency	DOP	150.00
In international dollars		7.28
Tax (share of the final price of most sold brand)		
Total taxes		57.21
Specific excise taxes		33.40
Ad valorem excise taxes		8.56
Value-added tax (VAT)		15.25
Import duties		0.00
Other taxes		0.00
Evolution of taxes and prices	2008	2016
Tax (share of the final price of most sold brand)	57.03	57.21
Price of most sold brand (international dollars)	5.88	7.28

	WHO FRAMEWORK CONVENTION ON TOBACCO CONTROL	PROTOCOL TO ELIMINATE ILLICIT TRADE IN TOBACCO PRODUCTS
Date of signature (d/m/y):	—	—
Date of the ratification or accession (d/m/y):	—	—

Tobacco: prices and taxes

RETAIL PRICE PER PACK OF 20 CIGARETTES

		In local dollars (DOP)	In international dollars (PPP) ¹
Most popular brand:	Nacional	150.00	7.28
Most inexpensive brand:	Premier	120.00	5.83
Most expensive brand:	Marlboro	200.00	9.71

TAXES ON TOBACCO²

Taxes as percentage of the final price of the most sold brand

Excise taxes ³	Specific taxes ⁴	33.40%
	<i>Ad valorem</i> tax ⁵	8.56%
Value-added/sales tax (VAT)		15.25%
Import duty ⁶		0.00%
Other taxes		0.00%
Total excise taxes		57.21%

Design and administration of cigarette taxes

Are taxes applied in mixed fashion (*ad valorem* and excise)? Yes

If a mixed tax system is used, is the tax burden of excise taxes greater than that of *ad valorem* taxes?⁷ Yes

If an *ad valorem* or mixed tax system exists, is a specific minimum tax applied?⁸ No

- The international dollar is a currency unit adjusted for purchasing power parity (PPP) that is used to compare the value of products and services in different countries.
- Taxes: taxes imposed on goods or services which cause consumers to pay higher prices.
- Excise taxes: these have a greater impact on public health since they are applied exclusively to tobacco products and raise their relative price compared to other products and services.
- Specific tax: it is established in relation to quantity, for example, a set quantity of cigarettes, or by weight.
- Ad valorem* tax: is based on the value of the product, such as a percentage of the retail price, the manufacturer's price, etc.
- The effectiveness of import duties in raising sales prices has been declining as countries have signed bilateral, regional, and global trade agreements.
- Specific excise taxes tend to raise consumer prices more, relatively, than *ad valorem* taxes. Imposing the same specific excise tax on all cigarettes sends the clear message that they are all equally detrimental.
- If the tax calculated falls below a specified minimum level, a specific tax rate is applied.

EVOLUTION OF TAXES AND PRICES ON THE MOST POPULAR BRAND OF CIGARETTES

	2008	2010	2012	2014	2016 ⁹
Tax (percentage of the final price of the most sold brand)	57.03%	57.11%	58.59%	58.87%	57.21%
Price of the most sold brand (international dollars)	5.88	6.59	6.52	7.47	7.28

⁹ The country has increased excise taxes on tobacco since 2014; however, due to price variability, this does not necessarily have an effect on the tax indicator.

EVOLUTION OF THE PRICE OF CIGARETTES COMPARED TO INCOME

	2008	2010	2012	2014	2016
Percentage of per capita GDP required to purchase 100 packs ¹⁰	5.58%	5.74%	5.28%	5.22%	4.55%

Have cigarettes become less affordable since 2008? No¹¹

Did cigarettes become less affordable between 2014 and 2016? No

¹⁰ Note that a higher percentage means it is less affordable, which discourages cigarette smoking.

¹¹ The most sold brand of cigarettes has become more affordable since 2008.

Percentage of GDP per capita required to purchase 100 packs

SUPPLEMENTARY INFORMATION ON TAXES

Are tax stamps or bar codes required for tobacco products?	Yes ¹²
Are duty-free sales banned or limited?	Limit of 200 cigarettes
Is tobacco tax revenue pre-allocated to a specific purpose or activity?	No

¹² Indicates that tax stamps or codes can be read by the naked eye (such as color-changing inks, holograms, latent images, watermarks, and security threads).
