
INTERNATIONAL SEMINAR PRE-COSALFA 50

Getting Close to Regional Eradication: Half a Century of Progress

22 - 23 April 2024

PROVISIONAL AGENDA

(version 21/04/2024)

INTRODUCTION

Welcome to the International Seminar of the 50th Ordinary Meeting of the COSALFA, an encounter that not only represents a significant chapter in our fight against foot-and-mouth disease (FMD) but also acts as a contemporary echo of the historic *Seminar on Foot-and-Mouth Disease Control and Eradication Programs in South America*, held at the Gloria Hotel in Rio de Janeiro, Brazil, where PAHO was recommended to create the South American Commission for the Fight Against Foot-and-Mouth Disease - COSALFA.

Today, following the same pattern, we are meeting once again to inspire and guide our present and future work. In this endeavor, each member country of the COSALFA brings a brief history, the current scenario and the challenges faced to maintain and advance to the FMD health status, according to the present context and the definition of different strategies to progress in each situation.

Likewise, the agenda has been divided into 5 (five) theme sections. The first one is devoted to an update of the foot-and-mouth disease situation in the world and in the region of the Americas, within the framework of the objectives, strategies, and guidelines of the Action Plan 2021-2025 of the Hemispheric Program for the Eradication of Foot-and-Mouth Disease (PHEFA).

The following 4 (four) sessions will be addressed by representatives of the veterinary services of the countries of the COSALFA, according to the status of the foot-and-mouth disease granted by the World Organization for Animal Health (WOAH). During this event, the present and future challenges for maintaining vaccination-free areas will be presented for discussion.

The sessions will be followed by a debate among the speakers as well as a discussion during the plenary session to identify different viewpoints of the audience comprised of the main players and representatives of the public and the private sectors as well as the academia, with an interest on the prevention and eradication of the disease in the Americas.

The conclusions of each session will be presented at the 50th Ordinary Meeting of the COSALFA.

SHERATON GRAND RIO HOTEL & RESORT Av. Niemeyer, 121 - Leblon, Rio de Janeiro - Salon Gávea AB

08:00 - 08:30	Registration
