

LET'S PREVENT TOGETHER ANTIMICROBIAL RESISTANCE IN OUR ANIMALS

HOW WE MAY HELP?

If you need
antibiotics please
consider the
following good
practices:

A misuse of antibiotics
in animal production
may generate resistant
bacteria. Let's prevent
the generation of new
SUPERBUGS!

DIAGNOSTICS

Always get in touch with your veterinarian
before using antibiotics in your animals.

BUYING

Obtain antimicrobials in
authorized pharmacies or
drugstores.

EXPIRATION DATE

Do not use expired
antibiotics.

DISPOSAL

Do not throw in the
garbage, sewage or the
environment expired or
discarded antibiotics.

ANIMAL FEEDING

Try to avoid the continuous usage of antibiotics
as feed additives in animal production.

PRESCRIPTION

Avoid buying antibiotics if they
have not been prescribed by a
veterinarian.

REGISTRY

Buy only legally
authorized antimicrobials
in your country.

THERAPEUTICS

Follow strictly dosages and
administration schedules
based on your veterinary
prescription.

⚠️ ANTIMICROBIALS ARE ESSENTIAL MEDICINES AND THEY ARE LOSING ITS EFFICACY.
